"Let Us See To it that A Government of the People, for the People and by the People, Shall Not perish from the Earth."—A. LINCOLN.

Terms: $1.50 per Year

VOL. XXVI BELLEFONTE, PA., THURSDAY MORNING. JUNE 20, 1895. NO. 25

HE WAS MURDERED.

The Cause of a Coal Miner's Death Discoved by the Police.

Wilkesbarre, Pa., June 16,—Friday night the body of Andrew Yietsy, aged 30, a Lithuanian, who worked at the Blackman mine was found dead under a pile of coal in his chamber in the mine. He was taken to his home and was to have been buried to-day. The undertaker who had the funeral in charge found that the dead man's body had been washed and dressed by his wife and two boarders and they refused to allow him to examine the corpse. He notified the police to-day and an examination followed, and it was found that Yietsy had been murdered. Bullet wounds were found in the back of his head, in the left side, the right arm and the small of the back. They had been inflicted by a 38-calibre revolver. The police arrested the dead man's wife, Anna Yietsy; Anthony Zenitis, William Zenitis, John Orbein and William Skillfon, boarders in the house.

It was learned that on Friday morning Yietsy and Zenitis had quarrelled, Yietsy accusing Zenitis of being criminally intimate with Mrs. Yietsy. They afterward went to their work in adjoining chambers of the mine. It is supposed Zenitis came up from behind and killed Yietsy. Then the murderer covered up the body with rock and coal and reported to the pump runner that a fall of roof had occurred. No one was in that part of the mine when the shooting occurred except the murderer and his victim. The prisoners were taken before the mayor and held for court without bail.

A Horrible Tragedy.

St. Francis, Kan., June 16.—Frank Williams, a farmer living near here, attempted to murder his wife, Miss Alice Smith and William Smith yesterday. He then beat the heads of his two children, a girl aged 5 and a boy 9, with a hatchet, after which he blew his brains out with a revolver. The children will die. Williams lost his first wife last September and last May was married to Mrs. Kennedy. After four weeks of trouble the woman left him and went to live with a man named Swanson. During last week Williams went to the house of Swanson, flourished a revolver and attempted to kill his wife and Mrs. Swanson.

Yesterday morning the Swanson family and Mrs. Williams started to come to St. Francis to have Williams arrested. On the way they stopped at the house of George Smith and while there Williams appeared, whipped out a revolver and began to fire at everybody in sight. William Smith was shot through the cheek once and twice in the back. Miss Smith received a bullet in the breast but her corset arrested the ball and she suffered a slight flesh wound. Mrs. Williams received a bullet, but was not seriously wounded. Williams then rode home, where he completed his devilish work on himself and children.

Cuban Rebels Getting There.

Jacksonville. Fla., June 16.—A special to the Times Union from Tampa, Fla., says: Passengers from the steamship Mascotte this afternoon say that General Maceo, on Wednesday, charged a government train between Holquin and Givaia and secured a large booty. He got $80,000 of Spanish money, 1,000 rifles and a large quantity of ammunition. Besides this he captured a large quantity of government supplies.

General Maceo fought one battle with Spanish forces at Capa; and one at Siquaneau, routing the enemy with heavy losses and burning both towns. This occured in Las Vegas district, where many hundred of the best Cubans are joining his forces.

An Unequal Duel.

Bloomington, Ind., June 16.—Will Douglass and Frank Koontz, of this city, loved their neighbor Miss Nellie White. By agreement they repaired to the corporate limits yesterday and fought a duel. Koontz was unarmed and gave battle with his fists. Four shots were fired by Douglass. The last one took effect under his opponent's heart. The wound is fatal. Douglass was arrested and placed under heavy bond to await the result of his rival's injuries.

To Answer the Charge of Murder

Easton, Pa., June 17.—Samuel C. Carpenter, who has been in the Easton prison since April 24 last, awaiting requisition papers for his removal to Warren county, N. J., to answer the charge of murdering Mrs. Ray Blackwell, was this morning turned over to the New Jersey authorities by Judge Scott. Carpenter was a resident of Easton. The offense was committed in Philipsburg, N. J., opposite Easton.

DRUGGISTS say that their sales of Hood's Sarsaparilla exceed those of all others. There is no substitute for Hood's. 9-20-1t

WEATHER PREDICTIONS.

Foster Says It Will Be a Good Year for Corn.

My last bulletin gave forecasts of the storm wave to cross the continent from 19th to 23d, and the next will reach the Pacific coast about 24th, cross the west of Rockies country by close of 25th, the great central valleys 26th to 28th and eastern states 29th.

This storm wave will be preceded by a very warm period, excessive evaporation and drought, and following it will come very much cooler weather, with a large increase of rain and good crop growing weather in numerous and excessive parts of the United States. This and the preceding storm wave will be above the average in force, and high winds may be expected.

The warm wave will cross the west of Rockies country about 24th, the great central valleys 26th, and eastern states 27th. Cool wave will cross the west of Rockies country about 27th, the great central valleys 29th and eastern states July 1. Indications favor sufficient rains in most parts of the corn belt to make a fair corn crop, and the only probable drawback is the expected low average of the temperature.

Indications are that the last part of June will be warmer than the first part, but altogether the temperature will average below in the great corn producing section. The same conditions of temperature are expected for July and August, averaging very cool in the Missouri, Ohio and upper Mississippi valleys, with a fair amount of rain.

The drouth and hot weather of April and May were correctly foretold, and an average of cool weather, though accompanied by some very hot days, and an average rainfall for the three principal corn months, may be relied on with a reasonable degree of certainty. Killing frosts will come early, not long after Sept. 16, in large portions of the corn producing country, and farmers should finish their plowing early in order that the corn may mature early. Where replants were late the corn will probably get frosted unless cut early.

The above in reference to the corn crop applies only to the northern part of the country drained by the Mississippi river and its tributaries.

Senator Cameron for President.

Washington, June 13.—Senator DuBois, (Rep.) of Idaho, just returned from a trip through that state, said in a significant interview:

"We Western silver men will vote for no one but a free silver man. If he is a Republican so much the better. We prefer a Republican. But if the Republican candidate is not a free silver man, and the Democratic candidate for President is, we will vote for the latter. Silver, not party, will be our watchword in the West. If neither of the old parties nominates a free silver man we will nominate Senator Teller for President and Senator Daniel or Morgan for Vice President, and divide the vote of the two parties. We shall first attempt, however, to nominate Senator Cameron in the National Republican Convention. If we bolt both parties we will be able to throw the election into the House, and on a roll call of States we would have a majority."

Allison for President.

Chicago, June 16.—A special to a morning paper from Mason City, Iowa, says: The candidacy of Senator W. Allison for president will be formally launched at the national convention of republican league clubs at Cleveland. In previous years Allison's candidacy has been regarded, even at home, as more of an expression of respect from an admiring constituency than a real desire to see him elevated to this exalted position. This year the republicans of the state will not be satisfied with anything short of seeing him placed at the head of the ticket. Some of the prominent leaders have even gone so far as to name for his running mate Robert T Lincoln. The best political workers the state affords will be present at the Cleveland convention for Allison. Heading the delegation is J. S. Clarkson.

Died With a Secret Unsolved.

Kokomo, Ind., June 16.—Last winter Mr. Overman, a farmer near Windfall, Tipton county, was found dead with a pistol near him. No cause for suicide was assigned. Yesterday a paper written by Overman was found in his effects that explained the mystery. Overman's letter says that twenty years ago an Englishman came to his house with $30,000 and tried to negotiate with him to go in the ranch business in Colorado. He murdered the Englishman, buried his body in a marsh, took his money and buried it on his farm. The place is not designated. This explains the hermit-like life of Overman for these many years.

M'GOVERN KILLS HIMSELF.

He Put a Bullet in His Head at Hastings Yesterday.

Tyrone, June 17.—Tyrone was startled shortly before noon to-day by the sad intelligence that John McGovern, of this place, had this morning made an attempt to take his own life. This afternoon a message was received that he had passed away a few minutes before 3 o'clock without regaining consciousness.

Mr. McGovern had the contract for building a reservoir for Hastings borough, at Kirk's, about a mile outside of the town.

Sunday he spent at the home of his brother, at Newtonburg, about six miles from Mahaffey. This morning he proceeded to Gallitzin. As soon as he had alighted from the train, shortly after 10 o'clock, he went directly to the farm house at which he boarded and proceeded to his room, without communication with any body. He sat down and wrote four letters, which he left to be mailed.

These letters were addressed to Mrs. Thomas McGovern, Tyrone, Pa.; Mrs. Ellis Snyder, New Germantown, Pa.; Messrs. Dill Bros., Dubois Pa.; Mrs. M. McLanathy, Philipsburg, Pa. On the corner of two of these letters was written, "If not delivered in five days, return to Mrs. Thomas McGovern, Tyrone, Pa. An unsealed note that he left directed that what money was coming to him in the contract should be paid to his brother Thomas.

Soon afterward he committed the deed, using a revolver. He shot himself in the head, the ball entering above the ear and passing out the eye, inflicting a wound also in the left arm near the wrist, that member having probably been raised at the time.

When found Mr. McGovern was unconscious, in which condition he remained until the end. His sister, Miss Annie McGovern, left on the afternoon train for Hastings, but the unfortunate man had breathed his last before she reached him.

The deceased has hosts of friends here who are greatly shocked at the sad news. His wife died April 16, 1894, and he is survived by two daughters at his late home here, Agnes, aged 4, and Mary Cecilia, aged 2 years. His mother, Mrs. Mary McGovern, one sister, Annie, and three brothers, Thomas, Peter and Patrick, also survive him. Mr. McGovern resided in the Seventh ward.

Drowning Accident.

Annapolis, Md., June 16.—W. H. Kerr, a wealthy resident of Catonsville, near Baltimore, and president of the Thistle cotton mills, Howard county, Md., was drowned to-day under distressing circumstances. With his family and a party of friends he came to Annapolis on board his steam yacht Watanga. After spending a few hours in the city, the party re-embarked, intending to return to Baltimore.

Shortly after leaving the wharf, Mr Kerr's 6-year old son fell overboard. Engineer Benton threw a life preserver to the lad, but he was unable to reach it. Seeing his son struggling in the water, Mr. Kerr sprang overboard and swam to his assistance. He succeeded in holding the boy's head above water until Captain Burlis, of Annapolis, arrived in a row boat and picked up the lad. The yacht had meanwhile drifted away and Mr. Kerr sank out of sight as his boy was rescued. After an hour's search the body of Mr. Kerr was recovered. Mrs. Kerr and her four other children were on the deck of the yacht and witnessed the sad accident.

Big Loss by Fire.

Greenville, O., June 17.—Fire started at 10.30 last night in the rear of Mosart's store. The flames quickly spread to adjoining buildings and soon the very heart of the business centre was ablaze. The fire was the work of incendiaries, and in the excitement thieves looted the town. Two persons were injured. They are Charles Dalrymple, of the Mosart store, and Dell Dougherty, a member of the city fire department. The latter's injuries are on the head and are of a serious nature. The Piqua and Richmond department were appealed to and sent aid, but the fire was under control when they arrived. The estimated loss will reach $225,000; insurance, $50,000.

MONDAY Charlestown and a large part of Boston turned out to celebrate the anniversary of the battle of Bunker Hill. We now have several patriotic days—Flag Day, Decoration Day, July Fourth, Washington, Jackson and Lincoln's day and those places which enjoy the honor of being historical celebrate special events. In this way is the American youth educated in a measure. Lancaster has no special day, but she does not use the general ones as she should. Our Decoration Day services are not always what they might be, and our Fourth of July is turned over to the small boy and his fire cracker. This should not be.

REPUBLICAN LEAGUE.

Delegates Are Beginning to Arrive for the Cleveland Meeting.

Cleveland, O., June 17.—Delegates to the Republican league convention began to arrive to-day. There were enough of them to attract attention in the lobbies of the hotels, and there was talk of the money question, tariff and league politics on every side. Secretary Humphrey arrived from Chicago and opened headquarters. There are a half dozen candidates for the league presidency, but Gen. E. A. McAlpin, of New York, is the leading man. He has enough votes pledged to him now to insure his election. He will come on the New York special train to-morrow night.

Senator Thurston, of Nebraska, will probably be the chairman of the free-for-all meeting Thursday. That is the meeting when any delegate may present any subject he pleases for discussion. It will be the occasion when the silver and gold men meet in battle array.

An indication that the west will not be solid for free silver was given by Frank W. Bicknell, of Des Moines. He is the representative of the Iowa State Register and the Iowa member of the National league executive committee. "Our platform is Allison's speech at Pittsburg" he said. "We are for international bimetalism. We believe that it is not within the province of this convention to adopt any resolution concerning party principles. That is the business of the national convention. We are for Allison for president all the time, but will not make a great display over it here. We are on good terms with all the candidates and do not care to have any friction with the McKinley people on his stamping ground."

"Information received by the local committee on arrangements indicates that there will be about 1,500 delegates present and the number of visitors is estimated at 10,000. The city will be in holiday attire, many of the big buildings being decorated already. Covers for 1,500 will be laid in the Arcade, [illegible] the banquet will take place Thursday.

Fatalities Resulting from Fire.

Cleveland, June 17.—Fire to-night destroyed the Reynold's restaurant and the workshops of the Cleveland Desk company in Court Place, and indirectly resulted in two fatalities.

The fire made a big illumination and a lady guest of the Wright house, three blocks away, went to the roof of the hotel to witness the conflagration. She became entangled in a live electric light wire. Her screams attracted Thomas Bell, who in his efforts to rescue the woman was himself terribly burned. When they were extricated from the deadly wire, Bell was removed to the hospital, and the woman whose body still showed some signs of life, was taken to the Huron street hospital. No one has identified her.

The loss was $2,500. The scene of the fire was immediately in the rear of the Lyceum theatre, which was in great danger for half an hour. The theatre was filled with people and a panic ensued, but no one was seriously injured. The city jail was also close by, but escaped injury.

A Notable Woman Dead.

Philadelphia, June 18.—Mrs. Elizabeth S. Hutter, who has been a prominent figure in philanthropic work for over forty years died to-day. Mrs. Hutter was the widow of Rev. E. W. Hutter, at one time editor of the Lancaster Intelligencer, which he left to become assistant secretary of state under President Buchanan. During the war of the rebellion she frequently went to the front, rendering valuable service to the wounded and suffering.

The work by which Mrs. Hutter was best known was the establishment of the Northern Home for Friendless Children at Twenty-third and Brown. The home was founded in 1853 and Mrs. Hutter was its first and only president. To this institution she devoted the best efforts of her life. She was one of the originators and first president of the Newsboys and Bootblacks.

The Philadelphia Times Must Pay.

Philadelphia, June 18.—President Judge Finletter, of common Pleas court No. 3, to-day handed down an opinion discharging the rule for a new trial in the case of ex-Mayor William B. Smith against the Philadelphia Times. The action was brought to recover to recover damages for alleged libel growing out of publications in the Times on October 2 and 3, 1892. The trial of the suit was begun before Judge Gordon in the common pleas court on April 15, and two days later the jury rendered a verdict in favor of the ex-mayor, awarding him $45,000 damages. An application was made for a new trial upon which argument was heard on the 4th instant. Judge Finletter's opinion is voluminous and goes into the various questions raised at this argument.

THE VETERANS MEET.

Society of the Army of the Potomac Convened Yesterday.

New London, Conn., June 18.—This city is filled with people to-day coming to attend the annual meeting of the Army of the Potomac and to witness to-day's parade, which was participated in by the veterans and blue jackets from the cruisers Atlanta and Cincinnatti, the regular army garrison from Fort Trumbull, the Third regiment of military, Grand Army of the Republic posts etc. The cruisers arrived from New York early this morning. The city presents a spendid appearance for the gala occasion, the principal business streets through which the procession moved being literally walled with decorations of flags and bunting.

All the railroads brought in throngs of people and and a constant stream has been flowing in all day. eneral Webb, president of the Army of the Potomac with Sharpe and Colonel King, secretaries arrived last night. The mayor and the president of the board of trade kept open house in city hall to-day to all callers.

The army of the Potomac assembled in the armory at 10,30 a. m., where the comrades were cordially greeted. At 11.15 the corps comprising the army held meetings in various locations where provision had been made for them. The meetings continued until 1 o'clock this afternoon. Governor Coffin arrived at 1 o'clock and reviewed the parade at Williams Park. To-morrow the guests of the city make an excursion into Long Island sound and in the evening the Army of the Potomac will hold a banquet at the Pequot house. Senators Hawley and Platt and Speaker Fessenden will respond to toasts.

The society at its annual meeting this afternoon elected Gen. J. Gibbon president and decided to hold its next meeting at Burlington, Vt. The big armory on Washington street was handsomely decorated and presented a splendid scene this evening when the public exercises commenced. The speeches for the most part were brief, and the speakers were accorded an enthusiastic reception. A march dedicated to Gen. Miles began the programme; and when the general entered he was given an ovation. The principal speech of the evening was made by General Gibbon.

BOUGHT A LITTLE LINE.

The Vanderbilt People Supposed to Have Made a Ten Strike.

Pittsburg, June 18.—New York and Pittsburg parties, supposed to be acting for the Vanderbilts, have purchased what is known as the Little Saw Mill Run railroad. This little line is probably not over half a dozen miles in length, but will give an entrance and outlet into this city for the proposed Pittsburg and Eastern trunk line, of which the Vanderbilts are believed to be the principal backers.

This small railroad was virtually in control of the Pennsylvania company for a long time, but they allowed their option to expire and it was gobbled up by the people, it is believed, representing the Vanderbilts. The greatest obstruction to the Pittsburg and Eastern railroad heretofore was its inability to get into Pittsburg.

If the plans contemplated are carried out the new trunk line will be able to reduce the mileage between New York and Chicago some ninety-six miles and also secure a great part of the tonnage of this city. The railroad will not probably be completed for several years.

American Publication.

The number of newspapers and periodicals published in the United States is 9,530. Of these 1,956 are dailies, 37 tri-weeklies, 301 semi-weeklies, 14,096 weeklies, 5 tri-monthlies, 79 bi-weeklies, 272 semi-monthlies, 49 bi-monthlies, and 182 quarterlies. It is Pennsylvania and not New York that leads in the number of dailies, having 197 to 178. Ohio, with 150, is third; Illinois, with 141, is fourth, and Indiana, with 120, is fifth. In no other state are 100 dailies published. New York leads in the number of weeklies, 1,127, and Illinois, with 1,000, is second. Pennsylvania is third, with 921. Of the monthlies considerably more than twice as many are published in New York than any other state—530. Of all publications New York has 1,993, Illinois, 1,583, Pennsylvania, 1,432 and Ohio, 1,146.

When the War Closed.

Quite a number of persons are under the impression that the war for the Union closed in 1865. This is not the case, however, as in a recent editorial in the Chicago Inter-Ocean, it is claimed that President Andrew Johnson did not issue a formal proclamation declaring the war over until August 20, 1866; and the Supreme Court of the United States rendered a decision in 1887, making this date binding upon the entire government in all official matters.

SILVER SHOULD BE REMONETIZED.

Prosperity May Be Restored by an Increase of Honest Sound Money.

About 1875 thinking people of the mining States first realized the serious effect the demonetization of silver would cause to the industries of this country. Self interest first prompted them to study both sides of this important question, which resulted in making them unyielding bimetallists, in favor of restoring silver and gold to the positions they occupied prior to the Demonetization act in 1873. They claimed unless that was accomplished gold would greatly appreciate in value, business would become depressed, mines and factories would close, and millions of workingmen would be denied the opportunity of supporting their families by the sweat of their brow.

It was believed that Congress would at once re-enact the law which had been repealed without its knowledge, or the knowledge of the country, without having been publicly discussed. America was indebted to capitalists of England, who foresaw that the appreciation of gold would greatly increase their wealth if our indebtedness to them was paid in gold, as it must be when one-half of the redemption money of the world was made taken money.

The so-called "Bland-Allison law" and the "Sherman law" were compromises they reluctantly accepted. While the relief afforded by the action of these laws was but partial, they opposed their repeal until assurances would be given that more favorable laws would be enacted, by the opening of the mints to the coinage of both metals alike. When the Sherman law was repealed the bimetallists predicted disaster would follow.

The gold monometallists, headed by President Cleveland, assured us a revival in business would immediately follow the repeal. Since the law was repealed more than three million workmen have been thrown out of employment and business nearly paralyzed. The repeal of the Sherman law was accomplished largely through the great influence President Cleveland exerted, in part by the free bestowal of patronage where it would do the most good. But gold continued to leave our shores. The reserve in the Treasury vanished daily.

The President ordered a sale of bonds at a lower price than they had been sold in years, and, we believe, robbed the people of millions of dollars. These acts had the beneficial effect of stimulating the study of the financial question. It is believed that of the thirteen million voters in the Union eight millions have reached the conclusion that silver should be remonetized, that prosperity may be restored by an increase of honest, sound money, which will give greater confidence in their ability to pay the indebtedness which must be incurred in the ordinary transaction of business.

We claim that permanent prosperity cannot be restored until silver is remonetized, although artificial values may and have been established by cornering staple productions, as has been the case in oil, leather, wheat, &c. Such artificial advancing of values will not be permanent and will furnish no additional employment for labor, which is the basis of all legitimate prosperity.

EDW. B. LIGHT,
Secretary National Bimetallism Union.
DENVER, COL., May 30, 1895.

Little Work for the Miners.

The depression in the coal trade at this place continues. A faint hope that was inspired by the spurt of two or three days when the month of June set in has gradually died out and the miners do not expect much work for an indefinite time. During the month of May the miners worked but three days. So far this month they have worked but four days and three quarters. Up to to-day there has only been three-quarters of a day's work this week. The days the mines are worked, as a rule, full time is not made.—DuBois *Express*.

Will Have a Reunion.

All former Pennsylvanians now residents of Salina, Kan., are making extensive arrangements for having an old fashioned celebration in that place on the coming Fourth of July. A request has been sent to this office asking that additional copies of this paper be forwarded to that place during the last week in June, so that all who are not now subscribers will have an opportunity of reading their old home papers. The request will be cheerfully complied with.

Which Man Wins?

The one with steady nerves and a clear brain. That means, in nine cases out of ten, the man with a good digestion. A Ripans Tabule after dinner may save to-morrow's buisness. 6-20-1t

CONFESSED THE CRIME.

After a Silence of Forty Years the Truth Asserts Itself.

Lancaster, Pa., June 12.—After bearing the burden in silence for forty years of a double murder, Mrs. Hetty Good, an old woman, when confronted with the terrors of death, confessed to the crime committed in her youth. Mrs. Good lived in Bowmansville, a small place near here, and was sixty-five years of age. No shadow of suspicion of an awful crime had ever rested upon her and in the eyes of her neighbors she was an unsuspected woman For several years past Mrs. Good has been slowly dying of consumption, and knowing that her end was drawing near, and probably harrassed by the agonies of remorse, on Monday of last week cut her throat. Her attempt at suicide, however, was a failure and several days more of life was given to her in which to suffer. After her attempt at suicide Mrs. Good asked that William Griffiths, who formerly lived at Bowmansville, but who is now a resident of Mohnsville, Berks county, be sent for. Griffiths is said to have been Mrs. Good's lover forty years ago when she was a fair young woman and to have been the father of her illegitimate child. Griffiths obeyed the summons of his old sweetheart and to him Mrs. Good confessed that she had beaten out their baby's brains and buried it in the yard of her house.

The unnatural crime of infanticide was not the only one that rested on Mrs. Good's conscience. On Tuesday she sent for the Rev. John Horning, a Mennonite preacher, of Bowmansville, and to him Mrs. Good confessed that she had killed her grandmother, Mrs. Huthchinson, by cowardly and secret means of poison. Mrs. Good said that the crime had been committed with the full knowledge and consent of her grandfather, Mr. Hutchinson, as the woman was old and decrepit and in the way.

After making her confession of her grandmother's murder, Mrs. Good grew rapidly worse and died last Friday. The details of the confession only reached here to-day and it is rumored that there will be other startling developements. The woman's grandfather, whom she accused of being a partner with her in the death of his wife, died several years ago.

Episcopalians Meet.

Reading, Pa., June 12.—To-day's proceedings of the Episcopal convention consisted principally of the reading of reports by the various committees. The report on the Episcopal residence fund shows receipts from all sources during the past year ending May 31, $26,698.43 and expenditures $26,408.41. The report of Treasurer W. H. Sayre shows that the receipts for the year were $9,151.88, and expenditures $9,839.11.

Bishop Howe, in his address, said: "There is danger that music will usurp too large a portion of public worship, and that the minds of some whose spiritual needs require them to pray will be beguiled into admiration of sacred song, losing the sense of need in listening to its beautiful expression."

This afternoon the following delegates were elected to the general convention which meets at Minneapolis in October: Rev. H. L. Jones, D. D., Wilkesbarre; Rev. James F. Powers, Pottsville; Rev. Gilbert H. Sterling, South Bethlehem; Rev. Leroy F. Bader, Harrisburg; Rodney A. Mercer, Towanda; William R. Butler, Mauch Chunk; H. M. North, Columbia, and J. Brinton White, Drifton.

A Prominent Fenian Dead.

Washington, June 12.—Major Richard Oulahan, one of the leading participants in the abortive Stevens Fenian movement for the liberation of Ireland and one of the gentlest mannered men "that ever scuttled ship or cut a throat," died in this city to-day. During the "Young Ireland" movement of 1848 he was associated with John Mitchell and made many contributions, chiefly in poetic form, to the Dublin Nation. He left Dublin in 1849 and came to the United States and during the civil war served as lieutenant in a New York regiment, and also as aid de camp on the staff of General Corcoran.

Through Horace Greeley he secured a clerical position in the treasury department, which he held up to the time of his death. As an advocate of the home rule cause, he carried on a correspondence with Charles Stewart Parnell, whom he knew personally, and the letters written to him by Mr. Parnell were used as evidence in proving that the "Parnellism and Crime" papers published in the London Times were forgeries.

Gold in Okalahoma.

Guthrie, Okl., June 13.—The rush of men to the new gold field on Boggy creek, southwest of Arraphoe, is increasing, and a large mining town has already sprung up.

Quannah Parker, the famous Indian chief, who is thoroughly acquainted with the mountains, says thatthe mountains are full of gold. Parker, with sixteen of his followers, including Little Thunder and Roman Nose, are digging for the yellow metal along with the pale faces.

—Itch on human, mange of horses, dog, and all stock, cured in 30 minutes by Woolford's Sanitary Lotion. This never fails. Sold by F Potts Green, druggist Bellefonte, Pa. v26-5-1y

Near Corry Thursday indignant citizens gave Chester Wright, who married a 14-year-old girl sixteen days after his wife died, twenty-four hours to leave the town. Wright left.

CUBA AND FREEDOM.

Senator Morgan Says Cleveland Did the Right Thing.

Washington, June 13.—"The proclamation issued by the president was the proper thing for him to do," said Senator Morgan this afternoon. "It shows that we care for our own self-respect, and also indicates our friendliness for the Spanish government. The issuance of such proclamation, however, does not change the status of the situation in the least. It but calls attention to the laws governing this subject and those laws would have been in full force and effect without it. If Spain had any ground for complaint against us or any of our people, this proclamation cannot be set up as an offset, but the Spanish government has no claim against us, and under the present condition of affairs, I fail to see wherein this government has done anything that is likely to embroil us with the government now endeavoring to suppress the insurrection in Cuba. We are doing all we can to restrain our own people; all officials have been notified to strictly enforce the law; one of our cruisers is patrolling the southern coast, and no aid is being rendered the insurrectionists through the intervention of the United States or through its failure to carry into effect the laws of neutrality."

John Wanamaker's Daughter Weds.

Philadelphia, June 13.—Miss Wanamaker, daughter of Hon. John Wanamaker, postmaster general in the cabinet of President Harrison, was married this afternoon, to Mr. Barclay H. Warburton, the publisher of the Evening Telegraph, of this city, The ceremony took place at half-past 4 o'clock at Lindenhurst, the home of the bride's parents, at Chelton Hills. The Rev. Dr. Charles A. Dickey, pastor of the Bethany Presbyterian church, officiated. Miss Elizabeth Wanamaker, the bride's sister, was the maid of honor. Mr. Warburton was accompanied by Mr. F. Duane as the best man and the were eight ushers. The wedding was a very quiet affair, only the immediate members of the two families being present, in addition to those mentioned.

Was Strangled to Death.

Belvidere, N. J., June 13.—George Andrews, colored, of Washington, was hanged in the jail yard here this morning. He had passed a quiet, peaceful night, having slept soundly throughout the night.

Andrews walked to the scaffold steadily and composedly, muttering a half audible prayer, which prayer he continued until the drop fell. Death was due to strangulation. Immediately before the drop fell Rev, Fosset, colored, at the prisoner's request made through him to acknowledge committing the murder of his wife, which murder was brought about through passionate jealousy and from the continual influence of strong drink.

Andrews cut his wife's throat at Washington, N. J., October 28, 1893, because she refused to live with him. They had frequent quarrels during their eight years of married life.

Mississippi Has Little Money.

Jackson, Miss., June 13.—The state of Mississippi finds it necessary to issue another lot of special warrants, as her treasury is almost bare. The state will hardly permit itself to become involved in trouble with Chief Hazen this time. He charged that a former issue of warrants were issued in dangerous similitude to national bank notes and had one of his agents come down here and arrest the auditor, treasurer and governor on a charge of counterfeiting. Though they were never indicted they will run no risks this time. The new warrants will be less than money.

Will Test the Garb Act.

Lancaster, Pa., June 13.—At the annual election of teachers by the Lancaster city school board this evening Miss Lena Hege, a Dunkard, one of last year's corps of teachers, was re-elected to a position in the schools. While nothing was said about her garb, which is peculiar to the Dunkards, and which she would under no circumstances discard, the directors will stand by her and test the constitutionality of the law if an effort is made to deprive her of her position, in case the governor signs the garb bill.

Retained as Counsel.

Trenton, N. J., June 13.—Senator William Dally, of Hudson, has been retained by the colored people of Trenton and Princeton to defend John Collins, the negro who shot Fred P. Ohl and Garrett Cochran, Princeton students, last Saturday night. Senator Daily thinks Collins has a good defense and cannot be convicted of murder.

One Bird Escaped.

Wilkesbarre, Pa., June 13.—A colored man named John Bird, who has been a resident of Pittston for some time past, suddenly left town on Monday. He is another one of the parties charged with the dynamite outrage at Mountain Cutoff. When he heard the detectives were after him he left for parts unknown. His arrest is only a matter of time.

A Fatal Accident.

On Saturday a fatal accident occurred on the trolley road in Williamsport in which a woman and a child lost their lives. The name of the woman was Mrs. Byers, the same lady who attended the Warfield-Harris wedding in this place, and the child was her grand-daughter.

It is said that Covington has a money lender who exacts eight per cent. interest.

SHROUDED IN MYSTERY.

An Alleged Cuban Filibustering Expedition being Hunted.

Washington, June 13.—Information reached Washington to-day that the steamer George W. Childs, which, it is said, left Philadelphia a fortnight ago in the interest of the Cuban rebels, touched at Jamaica yesterday and sailed last night for Santo Domingo. The vessel's movements are shrouded in considerable mystery. When she left Philadelphia she dropped down the river to Greenswich, where she is understood to have taken on board a consignment of arms for the revolutionists. Some days later she put in an appearance at the Florida Keys, Here she is said to have received the filibustering party under the command of four leaders, Rolloffk, Sanchez, Garcia and Castillo, as was stated in the United Press dispatches on Tuesday last.

It was originally announced that this party numbered 2,000 all told, but it has since been shown that the entire outfit did not exceed fifty persons. Nothing further has been heard from the vessel since these people were taken on board until the information that she had sailed from Jamaica last night. It is believed that the steamer called George W. Childs was not allowed any length of time in Jamacian waters. The English government has observed something more than a strict neutrality between the Spaniards and the Cuban rebels, feeling that the success of the Cuban rebels might lead to a similar uprising in Jamaica.

There May Have Been Another Murder.

Lancaster, Pa., June 13.—The sensational confessions of Mrs. Hetty Good that she had murdered her grandmother and her own child have caused no end of talk here Another crime is now supposed to have been committed at the Good home, near Bowmansville. Two years ago Mrs. Hetty Good's mother died under the most peculiar circumstances. The sickness of her mother was a mystery, and when neighbors called to see her Mrs. Good would not allow it, saying the invalid was not in condition to be seen. She died without any of her neighbors having seen her and without medical attendance. It is recalled now that Hetty Good often complained that she was obliged to support her mother. Frequently she would grow angry over the matter, and since her mother's death the daughter has often talked very strangely about her mother.

Mail Carrier Held Up.

Johnstown, Pa., June 14.—Word has just reached here that the mail carrier whose route is between Vintondale and Buffington, this county, was overpowered a few miles west of the former place last Friday night and the mail bag rifled of all its valuable contents. The point where he was held up is at the deserted iron beds which were mined fifty years ago.

When confronted suddenly by two footpads the young man fired several shots and fled, but was overtaken and overpowered by the robbers, one of whom guarded him while the other took the mail bag to a copse near by and rifled it of all supposed valuables, after which the carrier was given the bag and forced to proceed.

His story has been kept secret by the postoffice authorities, who at once made search for the robbers. A clew has been obtained and it is said arrests will soon be made.

Carlisle's Last Speech.

Louisville, Ky., June 14.—Secretary Carlisle delivered his third sound money speech in Kentucky to-night to an immense audience in Music hall. The secretary's address was mostly a repetition of his speeches at Covington and Bowling Green, only that he directed his efforts mainly to the working classes, which composed the major portion of his audience. He made no reference to the attacks of Senator Blackburn and others. Some of his most enthusiastic hearers were democratic candidates for office.

Mr. Carlisle spoke mainly of how the United States could not alone maintain free coinage and made a most lucid explanation of the evils which he said would follow the free and unlimited coinage of silver. After the speaking Secretary Carlisle was tendered a reception at the Waterson, where he was warmly greeted by democrats and republicans.

Private Daltzell's Reunion.

Caldwell, O., June 14.—The annual soldiers reunion under the management of Private Daltzell began this morning at the fair grounds west of town. The town is handsomely decorated and the stars and stripes are to be seen everywhere. On account of the intense heat the crowd is not as large as was expected and was much smaller than at the beginning of former reunions held here.

A number of grizzled warriors are here fighting over their battles again and marching around with almost as much alacrity as they did in 1861. The opening address was made by Private Daltzell and it was responded to by Hon. D. D. Taylor, of Cambridge. A number of distinguised visitors arrived this evening and more are expected to-morrow morning. The camp meeting goes on Sunday and that day, it is expected, will crown the patriotic jubilee of 1895.

Adam Dudish was killed in a mine at Natalie, near Sunbury, Thursday by a quantity of coal falling on him.

MORTON ON SILVER.

He Wants to Know When the Government Will Start a Grist Mill.

New York, June 14.—The following letter from Secretary of Agriculture Morton has been received by a business man of this city:

Washington, June 7.—Dear Sir: I hasten to acknowledge the receipt of your communication of June 6th, and would be pleased to have you explain to me the "Principle of Bi-metallism" about which you write. It will be gratifying also if you will illustrate to me how the farmer is to be benefitted by having fifty cents worth of silver bullion pass for a dollar in the purchase of farm products. Tell me likewise why the farmer should advocate a monetary system which will compel the gold miner to labor until he produces a hundred cents of gold bullion before he may have it coined into a dollar, and at the same time will permit the silver miner to stop work and demand the free coinage of every fifty cents worth of silver bullion which he digs into a dollar. Inform me at the same time, if you please, where you use the phrase "16 to 1" unless you desire to acknowledge yourself a gold monometallist. Is not the unit "one," which you mention, gold, and by your phraseology do you not declare against two units?

When the silver miner and the bullion owner shall have established by legislation government grist mills, which shall convert every fifty cents worth of farmer's wheat into a dollar of flour, it will be time enough for the farmer to advocate laws which shall convert every fifty cents worth of silver bullion into a dollar of coin,

Respectfully yours,

[Signed] J. STERLING MORTON.

Indictments Against Jersey Crooks.

Trenton, N. J., June 14.—The grand jury, to-day, returned a number of indictments. Among those in connection with the state house frauds are: Bernard J. Ford, fugitive, ex-superintendent of the capitol; John T. Van Cleef, ex-chief clerk of the state board of assessors, who made $10,000 out of crooked map transactions; John Mullins, the Jersey City furniture dealer from whom vast quantities of goods were brought to furnish the state house, and John L. Kuser, ex-business manager of the Newark Frei Reitung, who is accused of having bribed several printers in connection with contracts from German state printing. These printers, it is rumored, have also been indicted.

Arranging for Monuments.

Several old soldiers hereabouts remember the Chicamauga battlefield and will be interested in knowing that the commission appointed for the purpose, met Thursday at Harrisburg, to make arrangements for the placing of suitable monuments on the fields of Chicamauga, Lookout Mountain and Chattanooga, to mark the positions of Pennsylvania troops. A resolution was adopted that each regimental association select a design for its regiment to be forwarded to Colonel Blakely, president of the association, to be placed in the hands of the executive committee yet to be appointed. Resolutions were also adopted that each regimental monument have inscribed thereon the coat of arms of Pennsylvania and that the executive committee shall comply in every respect with the wishes and desires of a majority of the commission.

NEW DISCOVERY.

Among the many discoveries of the present age, none rank higher than the new metal silvereen, which owing to its great durability and cheapness is bound to take the place of silver in the manufacture of fine tableware.

Silvereen is a beautiful white metal, will not tarnish or rust, and all goods made from it are warranted.

We want every one to have a chance to compare silvereen with silver, so for the next sixty days we are going to give away one half dozen Crown Silver Tea Spoons *Free*, to every person who will send for one of our Terry's Silvereen sets, containing six Tea Spoons, one Sugar Shell, one Butter Knife. If at any time the Silvereen goods do not prove satisfactory, return them and your money will be refunded. Remember we give you the Silver Spoons.

Price of Silvereen set, $2.00. f7-2y.

TOLEDO SILVER CO. TOLEDO, O.

William Morgan, of Port Carbon, a loader boss at the Eagle colliery, Pottsville, was killed yesterday by a rush of coal.

BACKACHE

AND BEARING-DOWN PAINS

Nearly Drove Mrs. Martin Hale Wild. How She Obtained Relief.

[SPECIAL TO OUR LADY READERS.]

"Nearly all last winter I was sick in bed, and was attended by different physicians; none cured me, none helped me very much. When I attempted to get up, it was always the same story; my back would ache, I was dizzy and faint, the bearing-down pains were terrible. I also had kidney trouble badly.

"I knew I must have help right away. I resolved to try *Lydia E. Pinkham's* Vegetable Compound. The results were marvellous. I have gained in every way, and am entirely cured." — MRS. MARTIN HALE, Oakdale, Mass. Every druggist has it.

"A HAND SAW IS A GOOD THING, BUT NOT TO SHAVE WITH."

SAPOLIO

IS THE PROPER THING FOR HOUSE-CLEANING.

A Strong Decision.

The decision of the Illinois Supreme Court in the Whisky Trust case is a strong statement of the legal principles that exist for the protection of the public interest and for the nullification or evasion of which the trust policy has been framed. It is, in brief, that a corporation organized and conducted for the purpose of engrossing and monopolizing an entire business exceeds its charter rights and is illegal.

The Illinois Supreme Court has been notable for plain and clear doctrine on the subject of corporate abuses. Its reputation is fully sustained in this decision. The distinction which it draws is pertinent although it is one which trust lawyers have thought to be impossible. A corporation buys another concern to operate it as a part of its business. That is legitimate and legal. Another corporation buys out a rival simply for the sake of suppressing its competition. That is illegitimate and illegal. It is easy to distinguish between the two purposes. A system of law which undertakes to determine the purpose with which a man strikes a blow can certainly distinguish between the corporate course of buying property for actual use in its business and that of buying property for the sake of shutting it up and suppressing competition. The latter purpose, as the Illinois Court forcibly declares, is beyond corporate powers.

It is refreshing to find at least one court that maintains the well-established principles of law against the advance of the monopolistic schemes. It is an especially pleasant contrast to the course of the politicians in furnishing to order whatever legislation the trust policy may desire to make its position secure.

Hot :- Work

It is a pleasure to cook when the housewife has such dainties as can be found at the EUREKA GROCERY. The best flours, prepared food of all kinds, canned meats, fish, etc.

Prices to suit the times. Call and see for yourself. Store on High street, next door to post office.

E. C. TUTEN, Prop.

AN IMPORTANT CLUB OFFER

SCRIBNER'S MAGAZINE

-AND-

The Bellefonte Republican

For $3.75.

If purchased separately these periodicals would cost $4.50.

IT IS THE PLAN OF SCRIBNER'S to give its readers next year a history of the pas 25 years in the United States. (1894-95.) These years have been unparralleled in the history of the world for national development and material progress. The narrative will be written in a graphic and picturesque style by President Andrews, of Brown University, and capable artists will illustrate it.

ROBERT GRANT whose "Reflections of a Married Man" will long be remembered, ha written a series of articles on "The Art of Living," in which he setshimself to solve, a far as such problems can be solved, questions which beset every well-to-do family: The Income—The dwelling—Household Expenses—Education of Children—Married and Single Lif —The Summer Problem, etc., etc. Beautifully illustrated.

GEORGE MEREDITH, whom more than one good authority has pronounced the greatest of living novelists, has written a strong serial, "The Amazing Marriage" to begin i January.

D. HOWELLS, will contribute a novel entitled "The Story of a Play,"

IN THE LAND OF DONQUIXOTE will be a series of three sketches illustrated b Daniel Vierge's wonderful drawings.

SINGLE ARTICLES in great variety have been arranged for and [the] illustrations wil be eleborate.

Scribner's For 1895 Will Be Better Than Ever.

If you desire only SCRIBNER'S MAGAZINE remit $3.00 to th Publishers:

MATTERN FAMILY REUNION.

It Was Largely Attended at Warriorsmark on Thursday.

Notwithstanding Thursday's inclement weather the reunion of the Mattern family was held at Warriorsmark and it proved a most pleasant and successful affair. Almost one thousand members of the Mattern family were present, and a large number of friends in addition. A. J. Mattern was master of ceremonies and the Mattern family sang the hymn, "Blest be the tie that binds." Mr. Hayes Mattern delivered the address of welcome which was responded to by Rev. John A. Mattern. There were a few recitations and then the meeting closed with the reading of the historical sketch by Hon. John W. Mattern.

A permanent organization was effected at the afternoon meeting as follows: President, Rev. John A. Mattern, Newton Hamilton; vice presidents, William J., of Franklin, Dr. William K., of Philadelphia, John A., of Danville, Indiana, and Lemuel H., of Whiting, Indiana; treasurer, A. J. Mattern, of Tyrone; secretary, C. S. W. Jones, of Tyrone; corresponding secretary, Dr. W. H. Flenner, of Tyrone; executive committee, John B., of Buffalo Run, Jacob H., of Warriorsmark, John W. of Philipsburg, Jerry C., of Hollidaysburg, and G. Perry, of Osceola; historical committee same as previously elected.

The posts of honor in the front of the platform that morning were occupied by the mothers of Matterndom: Mrs. Catharine Gray, aged 92, of Stormstown; Mrs. Elizabeth Jones, aged 87, of Tyrone; Mrs Mary Krider, aged 84, of Warriorsmark; Mrs. Julian Parks, aged 80, of Tipton; and Mrs. Jane Roland, aged 75, of Mechicsburg, Indiana county; and by the father of the clan, George W. Mattern, aged 85, of Franklinville.

THE MATTERN FAMILY.

The origin of the Mattern family is not known, though the name is German and was formerly written Matthern. Undoubtedly Germany or Switzerland contributed the parent stock. The earliest authentic record is that of the marriage of Geo. Matter Mattern to Catherine Schuppin in Berks county, Pennsylvania, in March, 1764, this marriage being recorded in an old German bible in the present possession of Hon. John W. Mattern, of Huntingdon.

From the research recently made it appear that George Mattern and at least two brothers were residents of Berks county about 1764. One of these brothers was John Jacobs, who moved to Northumberland county, now Snyder, and died there, being buried at Middleburg. The other brother was Solomon, who settled in Schuylkill county, and of whose descendants we have no data, except that one Dr. W. K. Mattern, is now physician to the coroner of Philadelphia. The descendents of John Jacob reside mostly in Snyder and Mifflin counties.

The reunion is composed almost entirely, however, of the decedents of George Mattern, who came to Huntingdon county perhaps about 1780, and settled upon the banks of Spruce Creek upon the place now known as the Wigton and Ingram property. Afterwards he moved to the adjoining farm, known as "Mansion place" where he lived until his death in 1808, and which is still owned by his grandson, Geo. W. Mattern, father of A. J. Mattern, of Tyrone.

Married at Roland.

On the evening of the 12th inst., Eagle chapel, at Roland, was eleborately decorated inside for the long expected event which was to unite in wedlock Mr. Daniel N. Bailey of Morrisdale, Clearfield county, to the pretty and popular Miss Jennie Jacobs, of Roland.

A wedding gate of four columns spanned by three arches of flowers and evergreens was erected at the altar. In the central arch hung the wedding bell, white immortelles. In the main aisle, one-third distance from the door was the ribbon arch, where Master Harry Curtin stood guard till the approach of the bridal party at 7.30 p. m., when he slowly and as the wedding march resounded from the organ, played by Miss Jennie Peck of Lock Haven, advanced and opened the wedding gate. Next in "slow and solemn march" came the maid of honor alone, then followed the ushers, then the bridesmaids, four of each in twos at long intervals, the flower girls Catherine Curtin and Helen Jacobs, two sweet little blondes, last in processional order the bride and groom. In coming out the order was reversed.

At the altar the contracting parties stood under the bell while the attendants arranged themselves, the ushers on one side, the maid of honor with flower girls and ribbon boy in centre and bridesmaids on the other side. The whole effect was solemn and impressive but withal pleasing, so well had the people in the party been rehearsed. The bride's dress was of cream cashmere with silk and pearl trimming, while two of the maids wore white with blue, and two white with pink trimmings. The flowers carried were fresh pink and white roses in boquets.

The ceremony over the Rev. Mr. Foster announced that the congratulations would be received at the home of the bride, the residence of Mr. Robert Jacobs, of Roland.

The attendants were maid of honor, Miss Sallie Jacobs, sister of the bride; bridesmaids, Misses Alice Neff, Roland; Gertie Zimmerman, Altoona; Bertha Jacobs, sister of the bride and Miss Bartley, sister of the groom. Messrs. John Neff, Will Jacobs, Wilbur Leathers and Chas. Lingle were the ushers.

August Jurors.

The following is the list of jurors drawn for the coming August term of court, beginning on Monday, August 26th, 1895.

GRAND JURORS.

A V Daugherty, farmer, Burnside.
James F Weaver, farmer, Boggs.
Andrew Chambers, laborer, Show Shoe.
W H Noll, Jr., merchant, Spring.
Clement H Gramley, farmer, Miles.
John From, farmer, Harris.
Joseph Thompson, merchant, Snow Shoe.
John P Harris, banker, Bellefonte.
T A Ardell, farmer, Huston.
H J Pletcher, farmer, Howard twp.
H M Cain, farmer, Gregg.
Wyreman T Noll, plasterer, Spring.
Geo L Smith, carpenter, Bellefonte.
Frank McFarlane, farmer, Harris.
W Y Gray, carriage maker, Philipsburg.
Wm D Haines, teacher, Liberty.
H H Haupt, engineer, Rush.
Wm Ginter, blacksmith, Spring.
Jacob Stine, blacksmith, Walker.
Henry Miller, moulder, Millheim.
Thomas Rhoads, painter, Spring.
James P Grove, farmer, Gregg.
Henry Emerick, farmer, Gregg.
Jas C Williams, justice, Philipsburg.

TRAVERSE JURORS—FIRST WEEK.

Robert Gilmore, mechanic, Bellefonte.
John Cole, farmer, Walker.
Wm Martin, farmer, Benner.
J B Fortney, teacher, Potter.
M F Long, laborer, Burnside.
Samuel Orris, painter, Boggs.
Charles F Cook, bank clerk, Bellefonte.
W A Kerr, farmer, Potter.
Milton Shuey, carpenter, Ferguson.
J C Snyder, operator, Boggs.
Jos B Miller, farmer, Spring.
Michael Moyer, farmer, Rush.
John Harris, farmer, Walker.
L M Huyett, lumberman, Centre Hall.
E H Wian, farmer, Spring.
J H Herman, farmer, Benner.
W R Campbell, forgeman, Milesburg.
J W Mattern, gentleman, Philipsburg.
Jas Alexander, farmer, Potter.
Daniel Corman, merchant, College.
Michael Fetzer, farmer, Boggs.
O J Harm, clerk, Snow Shoe.
John Woods, farmer, Spring.
Wm McClellan, Jr., tailor, Bellefonte.
Philip Brower, farmer, Union.
James Corman, farmer, Miles.
M C Walk, farmer, Taylor.
Scott Houser, laborer, Spring.
Noah Auman, farmer, Gregg.
W S Walters, painter, Boggs.
Irvin G Alexander, farmer, Unionville.
W D Stover, farmer, Spring.
Wm Hoy, laborer, College.
John A Hunter, farmer, Halt Moon.
C C Taylor, laborer, Spring.
A C Iddings, farmer, Boggs.
Calvin Holt, farmer, Huston.
R O Heverly, laborer, Snow Shoe.
Samuel Ream, farmer, Gregg.
A T James, insurance agent, Philipsburg.
Henry Hale, laborer, Huston.
Boone Shope, laborer, Snow Shoe.
George Vantries, clerk, Bellefonte.
Philip D Foster, merchant, College.
Jas A Keller, farmer, Potter.
Daniel Tressler, farmer, Harris.
Luther M Musser, farmer, Gregg.
Jas W Barger, laborer, Boggs.

TRAVERSE JURORS—SECOND WEEK.

Frank McCoy, iron master, Bellefonte.
George Noll, dairyman, Boggs.
J B Frank, gentleman, Miles.
J C Weaver, insurance agent, Bellefonte.
Martin Shank, farmer, Boggs.
Wm Everhart, farmer, College.
Francis Rinehart, gentleman, Union.
F H Clemson, superintendent, Patton.
Wm Laird, merchant, Taylor.
T A Shoemaker, superintendent, Spring.
Jacob Bechdel, farmer, Curtin.
Edward Poorman, carpenter, Spring.
Rudolph Schad, plumber, Spring.
C J Finkle, farmer, Gregg.
Wm B Johnson, laborer, Liberty.
Michael Corman, farmer, Walker.
Wm From, miller, Gregg.
A J Gardner, carpenter, Howard Boro.
J H Stover, farmer, Union.
G W Hosterman, dentist, Centre Hall.
J T Lucas, merchant, Snow Shoe.
Bigler Schaffer, farmer, Walker.
J Wm Conley, merchant, Bellefonte.
Michael Kelley, coal operator, Snow Shoe.
Austin Myer, laborer, Penn.
John Leech, farmer, Harris.
John Brant, farmer, Penn.
A V Hoyt, civil engineer, Philipsburg.
Theodore Leathers, laborer, Howard twp.
W H McCausland, jeweler, Philipsburg.
Wm H Gingerich, farmer, Harris.
A E Clemson, gentleman, Ferguson.
Jno B Goheen, forger, Ferguson.
Ellis Shaffer, gentleman, Miles.
Noah Eby, distiller, Haines.
D W Boyer, laborer, Rush.

Five More Judges.

The judicial apportionment bill passed in the closing hours of the recent legislature has been approved by Governor Hastings. The measure creates five new judges and goes into effect at once.

Under the new apportionment Washington and Westmoreland each get an additional law judge, Centre is detached from Huntingdon and made a separate district, Huntingdon is tacked on to Mifflin to form a district and Jefferson is detached from Clarion so as to make each county a separate district. These are the only changes in the apportionment of 1893.

Salt and Cut Worms.

A. L. Snodgrass, of Sugar Grove township, Mercer county, has discovered a sure remedy for the cut worm nuisance. For some years he has been unable to procure even a small crop on account of the cut worms. This spring he bought 2,000 pounds of salt, scattered it over the ground, and one day this week found a spring completely stopped up with cut worms. They had gone there to get rid of the salt. He removed at least a bushel of the pest and then burned them.

Policemen Not Limited.

A matter of interest to all towns in the State was decided by the court at Norristown. The question was whether the borough police had a right to arrest any one outside the limits of the town. Township constables contended that the police had no right to do it. The court decided that they have the right, as it was very inconvenient for a policeman chasing a culprit to stop at the edge of the town and call for a constable.

Miss Emily Gibson, aged 32 years, dropped dead as she was passing through a field at her home near Meadville Thursday.

Ample Funds for Investigation.

The refusal of the House to make an appropriation for the Penrose Committee to investigate Philadelphia has not produced the results the opposition hoped for. The Municipal Reform association of that city has offered to supply all the funds necessary for a full and thorough investigation and to assist in procuring evidence of the municipal abuses. In so far as financial matters are concerned, the refusal of the appropriation has not crippled the committee, but has really made it stronger, for there is no limit to the funds that will now be supplied.

Neither was anything gained in the line boasted of by the Martin men after the defeat of the appropriation, namely, that the committee was deprived of its official character. The people of Philadelphia who want to see the rotten spots probed are not impressed with the opposition or fooled into the impression that the committee has lost caste. If there has been any change, it is that the committee has gained in dignity by the enemies it has made. Its composition did not make a favorable impression at first, and there were misgivings that it would not be very active in performing its duty; but since the municipal jobbers have shown fear enough of it to attempt its overthrow, it has risen in public estimation.

There can be no mistake about what should be done by the investigating committee. It should make a thorough and searching inquiry into the affairs of Philadelphia without fear or favor, and should bring to light the corruption, which no one doubts has existed there. It should bring out in the bright light the mysteries of the Automatic telephone franchise, and find out who the National Republican Committeeman is who turned down a candidate for Mayor at the behest of a great corporation; it should find out what corporation it is that devotes so much energy and attention to politics, and why it does it, and it should ascertain and make public the reasons why certain corporations can get everything they ask for, while other people are denied anything they want. There is material for considerable work in getting at the reason why certain reservoirs will not hold water, and why the sprinkling cart is not allowed on certain streets, for fear of injuring the alleged asphalt pavements. It will also make an interesting diversion to find out where the vast sums of public money, that have been raised by taxation and expended during the past five or ten years, have gone to. If the committee attends to all these things properly it will have no trouble getting an appropriation at the next session.

The Rule for Vegetables.

The usual rule for serving vegetables is one green vegetable and one starchy vegetable. If a green salad is used this often takes the place of the green vegetable as at certain seasons of the year it is difficult in many places to get more than one. An excess of starchy vegetables should be avoided, as one also has starch in the form of bread and in potatoes. With fish, vegetables of delicate flavor should be used, either potatoes, tomatoes cooked in many ways, cucumbers or green peas. With roast beef one may serve sweet or white potatoes, or in their place boiled rice, or hominy, cauliflower, Brussels sprouts, tomatoes, onions, okra, young beets, beet greens, green peas and Lima beans. The same vegetables may be served with beef steak as well as salsify, asparagus, or mushrooms. With boiled mutton serve potatoes, cauliflower, young carrots, salsify, onions, spinach, or any kind of beans that are green. With boiled mutton, serve caper sauce, currant jelly, or horseradish.

With veal serve carrots, white turnips, or spinach, lettuce, creamed cabbage, young beets, or beet greens. With game game serve a sauce and a salad. Stewed celery with a white sauce. With goose, when roasted, serve apple sauce, onions or squash. When potatoes are served as a vegetable with meat, and only one vegetable can be afforded in addition; it is more appetizing usually to have that one a green vegetable. It is also more healthful, as the potatoes furnish the starch needed for the diet.

Tours to the North via. the Pennsylsylvania Railroad.

To provide the most attractive method of spending a summer holiday, the Pennsylvania Railroad has arranged to run two delightful tours to the North. The points included in the itinerary and the country traversed abound in nature's beauties. Magnificent scenery begins with the journey and ends only with its completion.

The names of the places to be visited are familiar to all and suggestive of wonderland. No matter how much may be expected, one cannot be disappointed in Watkin's Glen, Niagara Falls, Thousand Islands, Quebec, Montreal, Au Sable Chasm Lakes Champlain and George, Saratoga, or the Highlands of the Hudson. The dates fixed for the departure of these two tours are July 16 and August 20, and the round-trip rate of $100 from New York, Brooklyn, Newark, Trenton, Philadelphia Harrisburg, Baltimore, and Washington will cover all necessary expenses during the time absent. A beautiful descriptive itinerary can be procured from the tourist department of the Pennsylvania Railroad, 1196 Broadway, New York, or Room 411, Broad Street Station, Philadelphia.

The Newspaper of To-day.

As the newspaper of to-day is the product of a many sided anonymity it will be an interesting experience for Philadelphia to come face to face with the men who make the newspapers, since, leaving all questions of literary value out of the discussion, the newspapers represent the most important factor in our modern life that makes for advance. A certain old-fashioned view of journalism treats the daily newspaper as if it should be judged by the same rules we should use in discussing an essay of Carlyle's or a poem of Browning's And these critics think they have established the futility of newspapers if they prove that the style is faulty and diction commonplace, but absolutely ignore the potentiality of a daily publication which is the great distributor of fact and information, and as such becomes as it were the national consciousness. As an art that annihilates space and time and tells any one portion of the world what all the rest is doing the newspaper does a work so tremendous in its effects and yet by such simple methods that it is not to be wondered at that some do not grasp its significance.

It would be easy to prove that civilization varied directly as the number and quality of the newspapers. It is therefore to be expected that Japan, with 2000 or more for its 40,000,000, should dictate peace to China, with but twenty for its 200,000,000. For the newspaper means national life, since in addition to the individual awakening which it causes by its presentation of fact it also acts as an assimilation come from the fact that modern enterprise, the news-gathering agencies, have knit the newspaper from Maine to California and from Manitoba to Texas into a common bond so that the similarity of news and other features that mark the American journal is so marked as to be wearisome to one who has to look over several hundred of them. If the physiologist could experiment on the millions of the United States and bring about such a state of affairs that a special food should be partaken of for breakfast every morning, what an interesting study it would make. And yet the newspaper of to-day does condition very much the same sort of pabulum for the 20,000,000 or more readers of the United States every day, year in and year out.

While the educational effect of its presentation of world-wide fact, of news, is one of the most important functions of the newspaper, and while its great similarity in dissimilarity means an assimilating factor not to be sneezed at, in its relation to the business world the newspaper exhibits a third function which is of equal value with the other two. It was no less a person than that able leader of the British Conservatives, the Hon. A. J. Balfour, who pointed out that the newspaper as an agent of civilization was largely so as the medium by which the buyer and seller were brought together. For with distance and time a mere bagatelle the business world no longer is cooped up in local quarters, but responds to London or Shanghai, Valparaiso or Melbourne, New York or San Francisco. As the one perfect medium of interchange, as the complicated bit of machinery, always adjustable to circumstances to peoples and conditions of life, to humanity's commercial, moral and intellectual wants, the modern newspaper in spite of all its faults is at once the vehicle of all progress and the triumphal car of civilization.

Jersey Shore Relics.

Thomas Waddle, now one of the oldest residents of Jersey Shore, owns a red leather pocket book, which was a gift to his father by Francis Mahoning, of Philadelphia, January 18, 1802. He also has the commission issued to his father by Governor Findlay, under date of March 9, 1819, as a justice of the peace "in the district numbered four, composed of the townships of Spring, Boggs, Walker and Howard, in the county of Centre.

WASHINGTON LETTER.

Washington, June 18, 1895.

From our Regular Correspondent.)

Mr. Cleveland goes on his summer vacation in a doubtful state of mind, notwithstanding the personal assurance of Secretary Carlisle that the administration democrats will control the Kentucky State Convention which meets next week. He fears that Carlisle is over sanguine, and he has other political troubles on hand. He has reason to believe that Senator Brice, while standing on the administration financial platform in his Ohio campaign, is working for Brice and not for Cleveland. He tried to get his fingers into the Ohio muddle by persuading Congressman Sorg to become the democratic candidate for Governor, but, although Sorg is a multi-millionaire, he thinks he spent enough in getting elected to Congress without being expected to open his barrel in the gubernatorial campaign and he isn't inclined, even to please Mr. Cleveland, to lead the democratic forlorn hope this year. Mr. Cleveland and his friends are also worried over Senator Hill's activity in democratic councils in New York; they know that it bodes no good either to Mr. Cleveland or his friends in the presidential campaign.

The eyes of republicans are now turned towards Cleveland, Ohio, where the National Republican League Convention will meet this week, and all of those who can make it convenient will be there in person. No republican—not even Senator Dubois, who has been in Washington on business—with whom your correspondent has talked, believes that the Convention will try to usurp powers belonging solely to a National Convention of the party to the extent of declaring by resolution what the Republican party shall or shall not support in the presidential campaign; that would be too much like playing into the hands of the democrats.

The scheme to keep the democrats now employed at the Government Printing Office upon Uncle Sam's pay roll after the republican administration takes charge, March 4, 1897, has been approved by Mr. Cleveland, and the whole outfit, including its more than 2500 employees, has been put under Civil Service rules. This is entirely satisfactory to the "ins," but the "outs" will not be apt to regard it with the same sentiments.

The higher the mercury in the thermometer climbs, the more pressing—in the eyes of Secretary Herbert—grows the necessity for an official inspection of the North Atlantic Navy Yards. Anticipating this necessity Secretary Herbert sometime ago ordered that the dispatch boat Dolphin be overhauled and put in proper inspection condition, including her commissary stores. This has been done, and the inspection tour which will take in all the swell ocean resorts from Fortress Monroe to as far north as Bar Harbor, will begin as soon as Secretary Herbert completes his list o summer guests, and will last from six weeks to two months. Last year Secretary Herbert had as assistant inspectors his daughter and a jolly party, including a rich widow against whom rumor credited him with waging a losing matrimonial campaign. This year his daughter is in Europe and the names of none of those chosen for assistant inspectors have yet been announced. It is treason to refer to this inspection cruise as being other that a performance of an official duty, but if Secretary Herbert was a republican official every democratic paper in the country would call it a private junket at public expense. I call it not at all; merely give the facts, and leave the reader to do his own calling.

Commissioner Lochren, of the Pension Bureau, may find himself in hot water with Congress, in connection with the one hundred dismissals from the office which are to take effect July 1. The list of dismissals has been kept secret, but it has been learned that it includes a number of old soldiers whose dismissal is a direct and flagrant violation of law, as well as a grand daughter of the author of the "Star Spangled Banner," who has a record of fourteen years efficient service in the bureau, and already steps are being taken which it is believed will result in a searching investigation by the Republican House. There are also a number of other matters connected with Mr. Lochren's or rather Secretary Hoke Smith's administration of the Pension Bureau, as it is well known that Mr. Lochren has never been allowed to take any step of importance without first getting Secretary Smith's approval, which deserve a congressional investigation.

WEEKLY FINANCIAL REVIEW.

From our Regular Correspondent.

NEW YORK, June 15, 1895.

During the first half of the past week, the market for securities showed the tendency towards rest and realizing that was apparent the week previous. On Wednesday, however, the publication of the Government monthly crop report showed a better condition of the cereal crops than had been expected, and encouraged a revival of buying, with some improvement in prices; which was helped by a better feeling at London on the completion of the of the fortnightly settlements; and this recovery has been held up to the close of the week. Beyond these accessions of confidence, late in the week reports were received from railroad officials in the West indicating materially better present conditions in the wheat crop than were shown by the Government report as for June 1st. One telegram from the President of an important system represents that, for the great wheat belt covering Montana, the Dakotas and Minnesota, the wheat prospects has rarely been better. It is probably that, in other sections, there has also been an improvement in crop conditions generally beyond what was represented in the Bureau's estimates of fifteen days ago. These are very substantial contributions to the future strength of the market and are likely to affect favorably the London markets as well as our own.

The drift of conditions seem to be carrying the market forward in spite of the efforts of professional "bears" to break prices, and notwithstanding a willingness on the part of some "bulls" to see some reaction in prices and to permit the market to repose for a time on its intrinsic merits. There are, however, no appearances of coming check in any direction; and, from the present outlook, it seems by no means improbable that we may have a good active market during the summer, which may bring regrets to operators who may choose to prefer recreation to watching Wall Street opportunities.

Any improvement in the prospects of a good surplus of cereals for export will have an important bearing upon confidence. Owing to the growing demand in the merchandise markets, there is a probability of the Fall imports being large, and that probability is strengthened by foreign reports of large purchases by American importers. It is therefore the more important that our exports of produce should be on a liberal scale, so as to obviate the possibility of important exports of specie;—that being the only sore spot remaining from the financial danger through which the country has passed since 1893. In some quarters, is a little solicitude as to how far the Loan Lyndicate may be depended upon to protect the Treasury against liability to export drains of gold after the winding up of the loan contract of last February. There are no open assurances upon this point, but the feeling is almost universal that the Syndicate will not retire from its regulation of the foreign exchanges until an understanding has been reached, as between the Treasury and the large local holders of gold, that will protect the Government against its former exposure to drain. Such a course seems so necessary in order to prevent an ultimate collapse of the Syndicate scheme, it is also so important to financial interest of every kind, and the prevention may be so easily achieved in pursuit of mere ordinary methods,—that it is generally regarded as an entirely safe assumption that all needful precautions against a return of invasions upon the Treasury gold reserve will be adequately provided for. This being assured, there remains no cloud in the financial horizon to suggest a misgiving.

Wall Street, though taking no active part in the silver question, watches closely the prospects of its solution. It knows just what estimates to put upon the populistic and otherwise popular clamor of the South and West in favor of 16 to 1 free coinage in the United States, and has no fear of the ultimate success of that programe notwithstanding its noisy agitation. There has been, however, a considerable number of conservative men who have favored the unrestricted coinage of silver provided it could be done upon a basis that would insure the full co-operation of all the leading nations, including especially England and Germany. The recent utterances and action of those two governments on this proposal have, however, dealt a serious blow to the hopes of the class who have thus stood midway between the gold-standardists and the silver-standardists. The British Chancellor of the Exchequer has emphatically affirmed that the present Liberal Government would, under no circumstances, make any departure from England's established policy of the single gold standard. The leaders of the Conservative, who hope to soon get into power, have been formally notified that any countenance to silver would lose them the support of their followers, which puts a quietus on Mr. Balfour's silver sympathies. As to Germany, that Government has promised its bimetalist subjects that it would make proposals to England for an international conference provided all the States of the Empire should approve of such a course. Already, the replies from the States show a general disfavor to bimetallism; which precludes the Imperial Government against taking any steps towards a monetary change. Thus, it would seem, that the prospects favorable to international bimetallism have become materially diminished. This important change in the situation is directly calculated to secure the adhesion of our internationalists to the gold standard, which is a large gain towards a safe settlement of this troublesome question.

HENRY CLEWS.

The Silver Convention.

Memphis, Tenn., June 13.—There were 2,000 delegates present yesterday afternoon when the big silver conference was called to order by William N. Brown, of Tennessee.

On the breast of every delegate was a red badge bearing the words, "16 to 1." The 16 was printed in silver lettering and the 1 in gold. At the top was a picture of a silver dollar.

Twenty-six States and Territories were represented. In the main it was a southern affair, every State in Dixie being represented.

All the silver producing States also took part, as did a number of the Western States. Pennsylvania was also represented.

President Brown then introduced ex-Congressman Young of this district, who welcomed the delegates.

Colonel Young has been the leader of the local silver forces for years, having made the contest for Colonel Patterson's seat in Congress on that issue at the last election.

His remarks were received with applause. At the conclusion, Senator Harris, of Tennessee, nominated Senator Turple, of Indiana, as permanent chairman, and he was elected by a viva voce vote. The Indiana Senator was cordially received.

Senator Turple's speech was a straightforward defense of silver coinage, without any personal reflections or demagogic criticism. Senator Turple's speech was attentively listened to. At the conclusion of Senator Turple's address F. B. Wade, Reading Clerk of the House of Representatives, was choosen permanent secretary. Alexander Delmar of California in an able speech, denounced the crime of '73. A Texas delegate assured the Chairman that Texas was a free silver by a large majority.

At the night session the speaker was Joseph Sibley, of Pennsylvania. Sibley scored Cleveland and Carlisle. After being introduced by Stewart, Sibley said to secure a gold standard the ten commandments would have to be repeated, in 1878 Carlisle, he said, was the plebian leader: now he is the leader of the patricians.

"We are for free silver," said Sibley, "because it will advance the price of wheat and cotton. The American sells fine cotton in England for five cents a pound and the Indian for five cents. The American brings his five cents back and only his five cents; while the Indian takes his five cents back to India and exchanges it for ten cents of debt paying money, and therefore sells his cotton for 10 cents a pound."

Secretary of Agriculture Morton, he said was a Wall street farmer. He denounced Cleveland for making the bond contract with Belmont and others. Sibley followed this by stating that the fight for free silver must win in 1896. We must save the State, said he, "and to do it we may have to lose the party. We may save both but the cause of silver must not be lost, no matter what else may have to be given up."

The rest of the speech was devoted to painting the glories of America when free coinage is in force.

Fourth Annual Assembly of the Pennsylvania Chatauqua at Mt. Gretna—Reduced Rates via Pennsylvania Railroad.

The Fourth Annual Assembly of the Pennsylvania Chatauqua will be held at Mt. Gretna, Pa., from July 1 to August 2, 1895, and the Pennsylvania Railroad Company will sell excursion tickets to Mt. Gretna, from principal stations in Pennsylvania, June 28 to August 2 inclsive, at reduced rates. The tickets will be good for return passage until August 5 inclusive.

The beautiful Mt. Gretna Park is situated on the Cornwall and Lebanon Railroad, thirteen miles from Conewago station.

Relief In Six Hours.

Distressing Kidney and Bladder disease relieved in six hours by the "New Great South American Kidney Cure." This new remedy is a great surprise on account of its exceeding promptness in relieving pain in the bladder, kidneys, back and every part of the urinary passages in male or female. It relieves retention of water and pain in passing it almost immediately. If you want quick relief and cure this is your remedy. Sold by F. Potts Green Druggist, Bellefonte, Pa. 6-9-1y.

SENATOR Quay is down at Atlantic City telling some big fish stories and talking but little politics as is his custom But he has given out that his favorite in the Presidental race is Mr. McKinley. A very good man say we, but all the pros and cons have not yet been considered by the people and the real leaders of the land. The Republican party does not lack great and worthy men, and they will all has to be reviewed in a less personal manner than by the lone fisherman by the sea before the popular will indicates a wise choice.

"Coin at School."

We have received a copy of "Coin at School" which is an answer to "Coin's Financial School." We are glad to see that the author answers by argument and not by blaggardism and statements not proven as do many who try to answer Coin's arguments. The book is a pamphlet of six chapters and 168 pages, closely resembling, both externally and internally, Coin's Financial School. It consists of a series of dialogues worked up into the form of a school and illustrated with a profusion of cuts, some of which are of a satirical character. The first two chapters treat of the alleged decline in prices since 1873; the third of the history of bi-metallism in the United States; the fourth of the effects of free and unlimited coinage of silver, if it shall be permitted; the fifth of answers to objections; and the sixth of miscellaneous questions and answers.

Geo. E. Roberts of Iowa, is the author, W. B. Conkey Co., of Chicago publishers. It is sent for 25 cents. It can be purchased at all newstands and on railr ad trains as the Honest Money League are making every possible effort to secure it a large circulation.

The Stealing Must Stop.

Farmers along the ridge road in Warriorsmark township, Huntingdon county, have been annoyed greatly by thieves entering their premises and carrying away poultry, grain and farm produce of various kinds. It is said that a couple of men living in an adjoining township but in another county frequent the ridge road region in the quiet hour of midnight with horse and wagon and ply their trade in a sort of wholesale way. The farmers who have been annoyed by them have determined to put a stop to this night marauding, and promise a warm reception to their unwelcome visitors if this thieving business continues. They are organized for their own protection and purpose to protect even if very severe means have to be resorted to in order that their purpose may be accomplished. The stealing must stop, and thieves may as well understand it first as last.

For the Housewife.

Half a teaspoonful of sugar scattered over a dying fire is better than kerosene, and has no element of danger.

A pinch of soda added to sour fruit will take away much of the tartness and make much less sugar necessary for sweetening.

It is stated that a pail of water containing a handful of hay, if placed in a room where there has been smoking, will absorb all the odors of tobacco.

Strong ammonia should be poured over old brass to clean it; then thoroughly scrub it with a scrubbing brush, and presently the brass will shine like new metal.

Announcements.

PROTHONOTARY.

We are authorized to announce the name of C. F. Deininger, of Centre Hall, as a candidate for Prothonotary, subject to the decision of the republican county convention

We are authorized to announce the name of Abram V. Miller, of College township, as a candidate for the nomination for prothonotary, subject to the decision of the Republican county convention.

We are authorized to announce as a candidate for Prothonotary, Grant Hoover of Union township, subject to the decision of the republican county convention.

EXECUTORS NOTICE.—LETTERS TEStamentary upon the estate of Mrs. E. J. Wilson late of Stormstown, Centre County, Pa., having been issued to the undersigned, all persons knowing themselves indebted to said estate are hereby notified to make immediate payment, and those having claims against the same to present them duly authenticated for settlement.

R. A. WILSON, Executor,
6-13-6t Tyrone, Blair County, Pa.

ESTATE OF JOHN FETZER, DECEASED. Letters of administration on the estate of John Fetzer, late of Boggs township, Centre County, Pennsylvania, deceased, have been granted to Clement Dale, residing in Bellefonte Borough, to whom all persons indebted to said estate are requested to make payment, and those having claims and demands will make known the same without delay.

CLEMENT DALE,
5-16-6t Administrator.

TRIENNIAL ASSESSMENT.—Appeals for 1895.

Notice is hereby given that the Commissioners of Centre county will meet the taxpayers at the following times and places for the purpose of hearing and determining appeals for the tri-ennial assessment of 1895. The time for hearing appeals will be between the hours of 9 o'clock a. m., and 4 p. m., except where otherwise noted:

Miles township, Monday June 17th, at the election house, Rebersburg.

Haines and Penn townships and Millheim borough, Tuesday, June 18th, at the election house, Millheim.

Gregg and Potter townships and Centre Hall borough, Wednesday, June 19th, at the election house, Centre Hall.

Harris and College townships, Thursday, June 20th, at the election house Lemont.

Ferguson township, Friday June 21, at the election house, Pine Grove Mills.

Spring and Benner townships, Saturday June 22nd, at the Commissioners office in Bellefonte.

Half Moon and Patton townships, Monday, June 24th, at the election house in Stormstown.

Taylor and Worth townships, Tuesday June 25th, at the election house in Port Matilda.

Huston and Union townships and Unionville borough, Wednesday, June 26th, at the election house in Unionville borough.

Snow Shoe and Burnside townships, Thursday, June 27th, at the election house in Snow Shoe.

Walker and Marion townships, Friday June 28th, at the election house in Hublersburg.

Boggs township and Milesburg borough, Saturday June 29th, at the election house in Central City.

Howard, Liberty and Curtin townships and Howard borough, Monday July 1st, at the election house in Howard borough.

Rush township and Philipsburg and South Philipsburg boroughs, Tuesday July 2nd, at the public hall, Philipsburg.

Bellefonte borough, Wednesday July 3rd, at the Commissioners office, Bellefonte.

Notice is hereby given to the assessors of the several districts that they be present with the board of commissioners on the day of said appeal in their respective districts, as well as all persons who may feel themselves aggrieved. Assessors will please bring all books and papers they have to the appeal.

A general appeal will be held at the commissioners office on Thursday, Friday and Saturday, July 5, 6, and 7, 1895. Persons wishing to be heard at the general appeal must have the assessors present and arrange with them as to their compensation. No appeals will be heard after the time above stated

GEO. L. GOODHART,
T. FRANK ADAMS,
J. B. STROHM,
County Coms.

R. F. HUNTER, Clerk.
Commissioners office, Bellefonte, May 21, 1895. 5-23-4t

What is

CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

DR. G. C. OSGOOD,
Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

DR. J. F. KINCHELOE,
Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ARCHER, M. D.,
111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

UNITED HOSPITAL AND DISPENSARY,
Boston, Mass.
ALLEN C. SMITH, *Pres.*,

The Centaur Company, 77 Murray Street, New York City.

GREAT LIST OF

About the Grangers' Picnic.

The Committee of Arrangements on the Grangers' annual picnic and exhibition report that it will be held at Grange Park, September 14 to 21, 1895. Many preliminary arrangements have already been made for the season; that reduced rates on the railroads (one fare for round trip) had been secured, with special trains from Harrisburg, Williamsport, Elmira, Altoona, Huntingdon, Clearfield and intermediate points. Application for exhibition privileges for live stock, machinery and domestic manufacturers were coming in already; Dr. Warren, State Zoologist, had tendered the State zoological exhibit that was at the World's Columbian Exposition for the occasion; the promise of the State College and Experiment Station exhibit, which has been so interesting and instructive at former exhibitions; it is believed the U. S. Weather Service will be represented, and prominent Grange speakers, of national reputation, have been invited and other lecturers on scientific and practical agriculture and domestic science. The committee have determined to place permanent walks in front of the tents and from the station to headquarters and to the different exhibition buildings, to prevent any future "Stick in the Mud."

"We have used Hood's Sarsaparilla for years and regard it as a most valuable medicine." Miss Tillie Osterheldt, No. 3613 Woodland Ave., West Philadelphia, Pa.

The Return From Good Roads.

The practical advantages of good roads are very forcibly set forth by a writer in Lippincott's magazine, who takes the vicinity of Moorestown, N. J., as an illustration. This town is in Burlington county, a few miles from Philadelphia. Before the road movement set in both town real estate and farm property were absolutely dead, and presented all the characteristics of a community that was finished and fenced in.

Two or three years ago that community began to build roads by the issue of town bonds and with the assistance of the State aid law of 1891. Under this policy 24 miles of good roads have been built, radiating from the town in different directions throughout the country. The effect on real estate has been marked. Farm property is in active request and near the town something like city prices have been paid for land. The activity in that town is in marked contrast with that of other towns of equal natural advantages, but without good roads.

The reason of this is also indicated by a single illustration of the greatly improved facilities for bringing the produce of farms to market. Before the improved roads were built farmers used four horse wagons to haul 30 bushels of fruit to market. Now they are having two horse wagons built to carry over 75 bushels. The effect on farming of multiplying the effectiveness of horse power in carrying produce to market by five can very easily be understood to be an immense facto for prosperity.

Such facts as these are absolute demonstration that good roads pay. The rural community that takes the opportunity most promptly will secure the earliest returns in the enhancement of population and values.

RHEUMATISM

They Made Speeches.

At the Mattern family reunion at Warriorsmark on Thursday afternoon, when the promiscuous speech-making was in progress, Burgess William E. Gray, of Bellefonte, was called upon. He said he was distantly related to the family and had come to enjoy himself. He had not expected to be called upon to say anything, but he had enjoyed himself and he felt glad to be present and related in even a distant way with such an intelligent gathering. If the founders of the family could look down on the gathering, they would certainly be pleased.

One of the last speakers during the afternoon was Judge John G. Love, of Centre county. He thought the present members of the Mattern family were equally as good looking as their ancestors. He had looked into history once to see if he could find any notable personages in the Mattern family, but he did not take much stock in pedigrees. He believed in every tub standing upon its own bottom. He was proud that his grandmother was a Mattern. Her influence meant much for him. She was a noble woman. He also paid a high tribute to his mother, and concluding said that each succeeding generation should surpass the past. If we do not improve upon our forefathers, then we do not come up to our duties and privileges.

Has No Hands.

The Kane Republican says: Amos K. Houghtalling is a resident of Ridgway. He is a married man with a family of growing children. When he was about 25 years of age and while working in Portland Mills, Elk county, his hands were blown off by a discharge of dynamite and he was otherwise injured. The hands were taken off at the wrists. Since then he has kept store, written insurance policies, tallied and shipped lumber, and engaged in other occupations which it would seem must of necessity be closed to a man who had no hands to use. He writes a good hand—or, rather, a good arm, for he holds his pen between the stumps of his arms. He takes considerable pride in his home, and this spring had spaded up his garden and put in proper condition, besides doing other jobs of cleaning up. He can dress and feed himself, and is so well able to care for himself that he often goes on journeys lasting several weeks.

To The World Of Women.

Weak, nervous, delicate, overworked women need a strengh builder, a tonic for their nerves, and a cure for that awful internal trouble that is wearing out their lives. Thousands of women have found such in Dr. Kennedy's Favorite Remedy. Mrs. Christiana Beal, of Jonesport, Me., writes that her daughter had been a great sufferer from female trouble, and after repeated trials of doctor's prescriptions and other so called cures, all of which gave no relief, she used Favorite Remedy and it permanently cured her.

If you have headache, uterine catarrh, irregular menstruation, leucorrhœa, or irregular monthly periods, sickness incidental to change of life, or any of the attending evils that are present in female complaints, use Favorite Remedy; it will build up quickly the run down constitution, dispel those tired looks and feelings, restore the nervous system and permanently cure you. Our daughters grow up weak and delicate; mothers can avoid such conditions by giving them Dr. Kennedy's Favorite Remedy. 6-20-1t

A Great List.

A gathering such as the one to be held at Hecla Park Thursday is quite a novelty in Central Pennsylvania, but when one glances over the list of prominent men who will be present on that day and make addresses, it is not to be wondered at that such a large crowd is anticipated. There is Senator S. R. Peale, Judge Hinckey, Rev. Harvey Graeme Furbay, State Secretary Bard, of the Y. M. C. A., Hon. J. T. McCormick, and perhaps Hon. John Wanamaker, Gen. James A. Beaver and Hon. Robert E. Ogden. What a list the above comprise! Who wouldn't go miles to hear all or any one of the the above gentlemen talk on Christianity?

And then there will be diversion in music. Music of all kinds—band music, orchestra music and singing, the latter under the direction of Mr. and Mrs. J. J. Low, of Philadelphia. And to add to the comfort of the physical man there will be a dinner, a better dinner than you can get at home, and for a good bit less money. Everybody in the three counties is going, and you want to go, too.

Spring Medicine

Is a necessity because the tonic of winter air is gone, and milder weather, increased moisture, accumulated impurities in the blood and debilitated condition of the body, open the way for that tired feeling, nervous troubles, and other ills. The skin, mucous membrane and the various organs strive in vain to relieve the impure current of life. They all welcome

Hood's Sarsaparilla

to assist Nature at this time when she most needs help, to purify the blood, tone and strengthen the laboring organs and build up the nerves.

"A year ago last spring I had a severe attack of inflammatory rheumatism which confined me to my bed for six weeks. I was treated by physicians and finally got around and went to work but my hands and limbs remained stiff and sore and the pains were severe at times. My wife prevailed upon me to take Hood's Sarsaparilla and I have taken about three bottles and the soreness and lameness have all disappeared." T. H. BLOOMINGDALE, 113 Bushkill St., Easton, Pennsylvania.

Purifies The Blood

Hood's Pills the after-dinner pill and family cathartic. 25c.

NEW YORK FASHIONS.

Traveling Costumes: Bicycle Suits: Light Materials: Shade Hats: Hosiery: Fancy Shoes.

The term Sicilienne usually conveys the idea of a silken material; but to-day, Sicilienne is a smooth finished mo-hair, (woven of such coarse threads that they just escape being squares) brought out for travelling or general wear. Almost all travelling dresses are of a dust shedding frabric, on the order of brilliantine, alpaca mohair or serge, and Cheviots or soft, mixed goods while worn, are relegated to a second position. Costumes of these glossy fabrics, present a much more attractive appearance in fawn color, blue, gray or brown than in black; fancy fronts however relieve a sombre tendency. A very stylish and cool travelling costume is a tan mohair skirt and short cape, with a silk waist which exactly matches the lining of the cape.

SHORT ROUND OR ETON JACKETS

with perfectly plain skirts are also very much in favor for travelling and the advantages of first quality bias velveteen skirt bindings, such as the "S. H. & M." brands, cannot be overstimated, as they are extremely durable, and preserve the perfect outline of the skirt, because cut on the true bias, and yet so smooth that shoes are not defaced by contact with the velvety surface. Rough straw Alpine hats trimmed by a band and flat bow at the side, or sailor hats, impart the requisite finish to travelling costumes.

THE "UP-TO-DATE" BICYCLE SUIT

is almost startling dispensing entirely with a skirt; merely very wide side plaited bloomers, with a short jacket having broad *revers*, and when made of white Sicilienne, trimmed by brass buttons, this costume becomes very conspicuous. A short circular skirt not reaching the knee, with short jacket and bloomers, is more refined at the same time, this design in brown brilliantine, ornamented with white lace points, and lavender colored satin, is quite pronounced.

THE APPROACH OF WARM WEATHER

brings all very sheer fabrics into prominence, and sponge crepon, crapes, light silks or grenadines are being made up with all possible despatch; particularly a variety of the latter, showing black grounds, bestrewn with very large colored flowers. The next in favor is plaided grenadine; formed of brilliantly colored narrow satin stripes crossing each other on dark changeable surfaces. This style is particularly well adapted for the sleeves of chiffon waists, and another lovely material for evening entertainments, garden parties, graduating dresses or weddings is "Fayetta" silk, shown in white, cream or all new shades, and being forty-eight inches wide, it cuts to great advantage. Although its soft shimmer and evenly-woven surface are not readily mistaken the genuine is always stamped "Fayetta" on the selvege.

SHADE HATS

vary from cheap mull up to stately Leghorns, trimmed with large roses, wide lace and Rhine stone pins, oftentimes with a stiff wing destroying all the romance of its surroundings. Ostrich plumes are elegant garnitures, where the hat is not intended for the sea-shore, but mixtures of Dresden ribbon and fine flowers, or flowers alone, will bear much hard usage. Trimmings may be anywhere, and Leghorn brims are curved over the face and turned up at the back; but those of white rough straw are entirely without curves. Black straws trimmed with velvet and lilacs, or dark blue or black mull hats are appropriate for middle aged persons, while white, pale blue, straw color or pink mull hats, enhance youthful charms and are comparatively inexpensive.

COSTUMES, HOSIERY AND SHOES

should again be in keeping, especially for evening or ceremonious entertainment; but the ever-increasing popularity of russet, makes it suitable for general wear, without strict regard to color. White will be universally popular, for both shoes and hosiery, and in colors, the former are made to order, where the shade is unusual. Lace open work takes high rank in evening hosiery, and embroidered vines at the side are very pretty and show to advantage.

VERONA CLARK.

His Patriotic Acknowledgments.

Recently our Nittany Valley correspondent spoke of a flag adorning the chimney of James Wolfenden's new residence at Lamar. Mr. Wolfenden writes and states the reason for thus hoisting the stars and stripes. He says that the act was a token of appreciation for the gift of beautiful white brick which are placed in the building and were given to him by Senior Fredericks. These white brick and the white lines between the excellent Mill Hall red brick produced a very artistic effect, and it gave him great delight to crown the Clinton county products with his best acknowledgments in this manner and also in anticipation of a great central Pennsylvania park, the avenues of which could be called after each county in the state.

ENGLISH Spavin Liniment removes all Hard, Soft or Calloused Lumps and Blemishes from horses, Blood Spavins, Curbs, Splints, Sweeney, Ring-Bone, Stifles, Sprains, all Swollen Throats, Coughs, etc. Save $50 by use of one bottle. A Slick Rascal.

DuBois Express: There are a number of people in town who would like to meet a man who formerly lived on East Long avenue. He hailed from Dayton, O., and represented that he had sold a property in that city to the school board and was waiting for a remittance. He produced letters in support of his statement. Some of the parties who were interested in him wrote to the board and received replies that the board had not purchased any property for about six years. The man was not to be rebuffed so easily. He shortly after produced a letter alleging to be from a school board official which supported his statement. He succeeded in securing about $800 from various parties in town and then skipped out. He owed his landlady $30 for rent. A. D. Orner would like him to reimburse him to the extent of about $275 and the Kellers of the Fourth ward would like to hear of his whereabouts.

"On the Go."—4

A Market for Centre County Flint.

In the many iron ore operations about Centre county there always was an annoyance encountered by the large amount of flint and silica occurring. This had to be taken out by either the use of machinery or by picking by hand. At every mine bank in this section, where any work of any account has been done, there are large heaps of this flint, which was dumped on a pile and considered a refuse of no value.

The large iron and steel plants at Pittsburg use the rich lake ores that are about 60 per cent. iron. In order to successfully handle these ores it is necessary to add what they call flux, for the purpose of keeping the molten metal from caking against the sides of the furnace. To overcome this difficulty a number of articles have been used with more or less success. It recently was discovered that the refuse flint from the Centre county iron ore operations was the very best flux that could be found and the result is that orders have been given for the shipment of from six to eight cars per day from this point.

The question of title to this refuse has raised some litigation already. The parties who leased land and operated, claim it is their product, while the land owners claim that they were to receive only the iron ore and nothing else. Another complication arises here. This refuse flint contains about 29 per cent iron ore, and on this account its expense will be met by the amount of iron it will yield in the furnace, and it may be difficult to determine how it should be classed, flint or low grade ore.

As there are immense quantities of this flint in our county, this demand will be an important industry in the future, preparing and shipping same to Pittsburg.

110 Miles in a Day on a Bike.

On Tuesday our young friend Goodhart, the implement dealer at Millheim, started from that place at 4 o'clock in the morning, on his bicycle to Bellefonte; thence to Hublersburg, then back to Bellefonte and on to Tyrone; returning homeward from Tyrone he reached Centre Hall at about 6 in the evening and took a half hour's rest. He said he felt only a little tired, but not having anything to eat for over half a day on his forenoon run, he said he felt blamed slack until he got some dinner. He left here about 7, expecting to reach Millheim about 9 p. m. The distance covered by Mr. Goodhart on this run, including stops, was 110 miles, What cyclist has done better in this county?—*Reporter*.

J. H. Cratty, a well-known and wealthy oil producer, of Franklin, dropped dead Thursday night of heart disease.

The Devil's Leavings.

Elder H. C. Brumbaugh, of this place, writes as follows in the Gospel Messenger:

"Swift says: when men grow virtuous in their old age, they are merely making a sacrifice to God of the devil's leavings. While it is better to sacrifice that which we can no more give to the devil with pleasure than to render no service at all, it is not the service that will give a happy old age. There is nothing in the world can give so much sunshine in old age as a life that has been devoted to the Lord's service. The wild oats that so many think they ought to sow, is oftentimes of slow growth, and continues its sprouting all through life; and sometimes in old age the harvest is sadly large, and proves prickly thorns in our couch for rest, when we desire and need it most. Life is a summation. No part of it can be taken as a representative of the whole. Whatever of the bad we put into it is there and forms a part of it. In God's summation of it he may for Christ's sake throw out the bad, but it so much empties our measure, and the good must be what is left,—not the whole, but the part, the time, the service devoted to the right. When old age comes upon us we are made to review and this wild oats and the black spots in our past lives distress us and mar our peace."

The Undine Jubilee.

Arrangements are about complete for the Undine picnic at Hecla Park on July 4th. Among the special features of the day will be a cash prize of $50 offered for the band in Centre county playing an overture, of their own selection, the best on that occasion. No prize will be given unless at least six bands compete. No entrance fee will be charged, but application must be made before July 1st to enter the contest, by writing to the secretary of the Undine Fire Company, Bellefonte.

The leaders of the different bands will meet that day one hour before the contest and select three competent judges and settle upon all further regulations. The band contest will begin at 2 p. m. The fire company will not allow their own band to enter this contest.

During the afternoon there will be a complete program of other amusements, such as races, aquatic sports, game of ball, dancing in the pavillion during the afternoon and evening. Warm meals and refreshments of all kinds will be served. The Central Railroad of Pa. will run special trains and offer excursion rates on this date, and there promises to be a big day at the park.

Chance for a Huntingdon Lawyer.

Under the provisions of the judical apportionment bill, which received the approval of the governor this week, Centre county, having 40,000 population, becomes a separate district and Judge Love will preside over its courts alone after the expiration of the terms of the present associates. The bill attaches Huntingdon to Mifflin county, the two counties constituting the Twentieth district. There are three candidates for the appointment of president judge in the new district, viz: Ex-Senator Williamson and K. A. Lovell, of Huntingdon, and H. J. Culbertson, of Lewistown. The friends of the several candidates are hustling with might and main for their favorites, and it is expected that the appointment will be made within the next two weeks. It seems that indications favor the appointment of Williamson.

Judge Orlady.

The senate passed the superior court bill on Thursday, and it now goes to the governor, who will probably sign it. The court is an intermediary tribunal between the county courts and the supreme court, and there will be seven judges, who will hold their sessions at Pittsburg, Harrisburg and Philadelphia.

The Huntingdon News says that Colonel George B. Orlady, of Huntingdon, will probably be appointed one of the judges. Colonel Orlady's appointment would meet with general approval. He is an eminent lawyer and a splendid man in every respect, and if he will consent to accept the appointment, give it to him quick, governor.

It is interesting to learn regarding the occupations of the people of the United States under the census of 1890 of the great increase during the past twenty years in the number of persons in professional occupations and the number of women who have been making their way both in the professions and into trade and transportation. The increase in the whole number of persons both male and female, employed in gainful occupations, has been from 12,505;923, in 1870 to 17,392,099 in 1880 and 22,735,661 in 1890. The increase in the number of women employed has been from 1,846,288 in 1870 to 2,647,157 in 1880 and 3,914,711 in 1890. The increase in the number of those of both sexes from 1870 to 1880 is indicated in a table showing the most notable increase among women employed in manufactures, professional service and in trade and transportation.

Almost Poisoned to Death.

On Thursday of last week Samuel Shaffer and his son Lester, were engaged in doing some work in the stable in the rear of their residence on Curtin street. During that night they both became very ill, and Paul, the youngest son, was compelled to go for the doctor three times and it was thought that the father would die, but with the aid of the proper medicines the sufferers were relieved and then soon were on a fair way to recover.

It seemed a mystery as to what caused the sudden and severe illness of these gentlemen, and after a little forethought it came to their minds that sometime prior to this occasion arsenic had been placed around the stable for killing rats, and in sweeping the stable floor they inhaled dust containing the deadly poison. They are both all right now, and after this they wil be a little careful about placing a drug that is so dangerous to the human body.

The Sunshine of Smiles.

There is one kind of sunshine which it is needful to bring into every home, and that is the "Sunshine of smiles." Next to the sunlight and warmth of heaven is that of a cheerful face. No one can long withstand its influence; no one can mistake it. A bright eye, an unclouded brow, a sunny smile, a loving word, all tell of the peace and joy that dwell within. One glance at such a face has lifted the mists and shadows from many a heavy heart and scattered the fogs from many a burdened spirit. A bright, warm, cheerful face inside the home will drive away gloom and render it impossible for it to exist. The germs of disease, which may lurk at times in the most elegantly furnished room if kept dark, will vanish away before the bright and cheery sunlight. Open, therefore, the windows of your heart and let the sunshine in.

Died Near Loveville.

On Wednesday Mrs. Ella B., wife of Harry G. Ebbs, died at her home near Loveville, this county. Mrs. Ebbs had been ill with typhoid fever but was on a fair way toward recovery when she had a relapse and the disease proved fatal. She was a young woman, aged about twenty-five years, and leaves a husband and two small children to mourn her death. Mrs. Ebbs was a daughter of Mr. and Mrs. Isaiah Beck, and her parents and a number of brothers and sisters also survive her. The funeral was held on Friday morning, interment being made at the Centre Line Lutheran church.

The Princeton Tragedy.

The death of young Ohl at Princeton is one of those terrible tragedies on which the imagination is almost reluctant to dwell, so thickly do they seem to people the familiar world in which reckless and excitable youth must move with dangers which it cannot be trusted to avoid. Youth's courage is so high and its recklessness is so constant that it scouts the idea of danger; and then the moment of bravado or exposure comes, the one fleeting, fatal moment, and that is enough for the loss of a brave young life.

And the present case is the more distressing as it partakes so little of this nature; it was so much mere chance and the brutal frenzy of a worthless negro, crazed by rum. The recklessness of Ohl and Cochran was no more than the mere bandying of a word or two with a chance bully, whom they left at once, and whom they had the misfortune to meet again. Indeed it might be said that every man's life at Princeton that night was in danger from the drunken negro's pistol.

Yet to the last recollection the pity of it will be that one grain of youth's fatal good humored impetuosity which led too high spirited, frolicking lads to bandy words where older men would have passed on disregarding, and for this impetuosity there is no help, nor ever will be. It makes youth's charm, and in all but the hundredth chance it is what proves youth's salvation. It is when the hundredth chance falls out wrong that the tragedy is so bitter.

Commencement Exercises.

Invitations to the annual commencement of the Central State Normal school at Lock Haven are now being issued. The baccalaureate address will be delivered Sunday evening, June 23, at 8 o'clock, by Ethelbert Dudley Warfield, LL. D., president of Lafayette college; Monday evening a concert by distinguished soloists will be given; Tuesday evening the alumni literary exercises will be held, during which Rev. George Reed, president Dickinson college, will deliver the address, and on Wednesday evening the eighteenth annual commencement will take place.

A Draft for One Cent.

Ex-Postmaster William T. Crispin, of Mill Hall, received today from the Post-Office Department at Washington, D. C., a post office draft for one cent, being the amount due him at the final settlement of his accounts as postmaster at Mill Hall, his term having expired 18 months ago. Mr. Crispin says he intends to keep the draft and will have it framed and given a prominent place in his residence.

Rose Cold.

Hay Fever and Summer Colds are promptly prevented or cured by Dr. Humphreys' Specific "77", for sale by all druggists.

THE one memorial in equlatorial Africa in which the whole civilized world has interest is pictured in *The Century* for May. This is the tree beneath which is buried the heart of Dr. Livingtone, and upon the trunk of which a record was rudely chiseled by one of the great missionary's followers. The photographs which is reproduced was made by Mr. E. J. Glav, in the course of an exploration undertaken for the *The Century* magazine. The tree was found near a deserted village on the South shore of Lake Bangweolo, and it towers far above all the foliage. The discovery of the exact location of this shrine is of particular interest in view of the failure of previous efforts to locate it. Mr. Glave writes that Mrs. Bruce—the daughter of Livingstone—and her husband sent out a tablet commemorative of the explorer's death, which the Belgian officers so whom it was consigned put up about eight miles from the tree. Eighteen months before Mr. Glave's visit, the tablet was carried off by the thief of a slave caravan.

Cholera

∗ Infantum

This dreadful disease cannot fasten upon childhood when the system is fortified with that great raw food extract known as

Bovinine

The medical profession in general have depended upon it for years. BOVININE is a food, not a medicine. Add a few drops to baby's milk. Nothing will build up health and strength so quickly.

IT WAS GRADUATION DAY

At State College, and a Large Crowd was Present.

Wednesday was commencement day at State College and one of the largest crowds ever known in the history of the College was present to witness the exercises which were held in the College chapel. The room was most beautifully and artistically decorated for the occosion, and the music as furnished by the famous Stopper and Fisk orchestra was very inspiring and highly appropriate. On the stage were seated the Faculty, Trustees and members of the graduating class. The program of orations delivered was as follows:

"The Monroe Doctrine," Budd Gray; "The Coming of Liberty," David L. Patterson, Jr.; "Utility, the Criterion of Worth," Ralph L. MacDonald; "The Ideal Voter," Melvin J. Kiefer. Byron B. Horton delivered the Valedictory oration. Then President Atherton introduced the Hon. Robert C. Ogden, of Philadelphia, who delivered the commencement address, a speech the exponent of all of good advice and wise counsel that could be given the young graduate.

At the completion of the address President conferred the degrees and awarded the prizes, the latter being as follows.

The English prize, to the best English scholar in the preparatory department, to Henry P. Newell, of Towanda.

The McAllister prize, to the best all around student in the Freshman class, to Ed. P. Espenshade, of Lancaster.

The Junior oratorical prize, to Frederic A. Hemphill, of Allegheny.

Degrees were then conferred and certificates presented to the class, as follows:

Chemistry—Dunham Barton, Mercer; Jacob Eugene Hall, Fleming; Harry Creighton Peffer, Tarentum; Warren P. Smiley, Factoryville, Geo. Knox Spence, McKee's Rocks; Harlan Lawrence Wishart, Wells' Tannery.

General Science—Hugh McAllister Beaver, Bellefonte; Byron Barnes Horton, Sheffield; Robert Waring Weiland, State College.

Electrical Engineering—Charles Watson Burkett, Remington; Henry Hollingshead Geary, Catawissa; William Kent Gibbony, Belleville; Edwin Partridge Harder, Catawissa; Melvin Jesse Kiefer, Sunbury; James G. Marshall, of Bellefonte; Robert Mathias, Chalfont; Lloyd Allen Reed, Alexandria.

Civil Engineering—Thomas Risdon Cummins, Conneaut, Ohio; Harry George Fleck, Allegheny; Samuel Franklin Herr, Parnassus; Thomas Wilson Rutherford, Harrisburg; George Brady Snyder, State College.

Mechanical Engineering—Budd Gray, Tyrone; Ralph Lashelle MacDonald, State College; William James Moore, Altoona; David Leslie Patterson, Jr., Allegheny; James Franklin Rodgers, Allegheny; George Edward Seibert, Bellefonte; John Edward Snyder, State College; Ralph Fitch Martin, Skaneateles, N. Y.

Biology—George Dorsey Green, Filmore; Robert Bruce Greer, Butler; Edward Humes Harris, Bellefonte.

Mining—John Lewis Harris, Sharon; Benjamin Franklin Williams, Wilkesbarre.

Those of the class who took the honors were the following:

First honors—Messrs. Gray, Green, Harder, Marshall and Wieland.

Second honors—Messrs. Burkett, Horton, Kiefer, MacDonald and Smiley.

The exercises over everybody started on a skirmish for a quick dinner, as there was a ball game in the afternoon and, of course, everybody wanted to see it.

In the evening at 8.30 o'clock the Junior class tendered the customary farewel reception to the Seniors in the College armory. The committee having the affair in charge were most elaborate in their preparations and the large room looked like one vast conservatory as well as an emblem of patriotism. Flags and bunting, potted plants and cut flowers were everywhere seen in the greatest profusion and, with the ravishing music of Stopper & Fisk orchestra rendered the occasion one of the extremist delight.

The patronesses included Mrs. Hastings, Mrs. Beaver and twenty other prominent ladies and the gaities were prolonged until the early hours of the morning. Guests were present from Philadelphia, Pittsburg, Harrisburg, Williamsport, Altoona, a large number from Bellefonte, and from many other towns. And, with the closing of the reception ended the 34th annual commencement of the Pennsylvania State College.

Silver Watch Stolen from a Vest.

H. D. Yerger, of Bellefonte, who is at present stopping at the Central hotel, had his silver watch stolen from him Thursday afternoon, He is engaged in laying a tile floor in the hall of Woodcock's Arcade and when he went to wash after dinner yesterday he left his vest, containing his watch, hanging on a nail. When he quit work last evening the watch was gone. Some thief had quietly removed it while Mr. Yerger was engaged in his work.—Altoona *Times*.

Band Festival.

The Port Matilda Cornet band will hold a festival and picnic on the 4th of July in William Beckwith's grove, about a quarter of a mile from Port Matilda. Everybody is invited and have a pleasant time.

About 100 men are now employed on the extension of the Buffalo & Susquehanna railway.

IT WAS A GREAT GAME.

And State College Won it Quite Easily.

The State College base ball team closed its season by defeating the crack Demorest team in a game characterized by heavy hitting and very clever fielding on the part of the blue and white. The visitors were never in it from beginning to end and although they worked hard they were out classed at every point. The success of Old State's team is largely due to the successful managing of Robert Greer. No pains or expense were spared by the manager to make the team a winning one and its phenomenal success reflects much credit upon its efficient manager.

A slight rain commenced to fall about the time the game commenced but the game went on as if such a thing as rain had never been heard of.

The good all around work of State's fielders elicited much applause from the thousands of spectators in the grandstand and on the bleechers. At the bat, the Cellegians were really greedy—taking everything that came along. In the first inning Rice poked one out to deep centre and when the ball had been found, Rice was sitting on the bench, he having made the circuit of the bases and so it was all through the game. While Nesbit seemed invincible. Ansell was sounded at will, and had it not been for the laboratory in deep left, the ball that would have been lost would have swamped a first national bank.

The most exciting part of the game was in the seventh inning. The visitors were at the bats and had the bases filled and two out. The next man at the bat smashed one towards right field which looked good for three bases but quicker than a flash. Atherton made a leap into the air and pulled the ball down with one hand, retiring the side. It was one of the prettiest catches ever made on the college ground. The fielding of Rice, Walker, Greenland and Atherton and the batting of the entire college team were the features. Towards the close of the game a smart rain set in which made the game rather uninteresting. The score:

DEMOREST.

The A. M. E. Church.

The A. M. E. Church of this town, established somewhat over a quarter of a century ago, is now in a flourishing condition, a genuine criterion of the advancement of the Afro-American. At the Quarterly Conference, presided over by Rev. W. H. Brown, P. E., Wednesday, it was found that they now have 65 full members and 6 probationers in the church; and 14 officers, 9 teachers and 78 scholars in the Sunday school, with an average attendance of 45; an increase of 11 officers and a proportionate number of scholars over 30 years ago.

Financially the church is in a fair condition and can compare favorably with any other in the town. The trustees report a collection of $33.95, for the present quarter; stewardess report a collection of $24.25; the stewards report paying ministers salary for the quarter, $126.62; also Presiding Elders' fee $8.00; the Sunday school reports $5.35 collection for the quarter and the Mite missionary and S. S. missionary jointly, report a collection of $5.17 for the past three months and there is yet in the collectors hand quite a sum to be reported on Grand Rally day, June 23. While the church indebtedness makes a total of $171.29, which the officers expect to obliterate before another three months.

The A. M. E. church is a religious organization operated and controlled exclusively by Afro-Americans and as it is Bellefonte's only colored religious association, it receives their hearty support and protection.

School Examination.

County Superintendent Gramley held an examination in the Bellefonte High School Tuesday. He had a large class and in it were several young ladies who recently graduated from the schools in Bellefonte and they did excellent work.

There were thirty-one applicants for certificates, but only twenty-three pulled through, the names of whom are as follows:

H, Mary Underwood, Frances Elmore, Della Goodfellow, Hattie Stott, Lena Baum, Jennie Longacre, May Taylor, Mame Bell, May L. Johnson, Bella Barnhart, Maud Love, B. Agnes Curry, Wm. H. Corman, Clyde Jodon, H. P. Hartsock, Harry Smeltzer, S. T. Brooks, J. H. Corl, Chas. H. Kirk, Roy Bell, H. S. Chambers, C. V. DeLong.

It is expected that about 200 men will be given employment at the Galeton car shops.

Centre County Grangers.

The regular meeting of Centre County Pomona Grange, No. 13, was held in the Hall of Bald Eagle Grange, No. 251, at Milesburg, on the 28th ult. The meeting opened promptly at 10.30 a. m., Hon. I. S. Frain, master, in the chair. The report of the secretary of the Patrons Insurance Company gave evidence of gain during the quarter.

The committee to consider the propriety of establishing a general exhibition department of cereals, fruits, vegetables and general farm products at the annual picnic and exhibition to be held on Grange Park, September 14—21, 1895, reported progress but were not prepared to submit a final report. The committee was instructed to submit a final report at the next meeting in August.

The committee raised in 1894 to consider the propriety of establishing a general produce exchange in Bellefonte, or elsewhere, submitted a partial report. It was largely suggestive, as nothing definite had been accomplished, but deemed it of the highest importance to the producer and consumer.

Good for the Academy.

Bellefonte has every reason to be proud of its institutions of learning, and especially of the Bellefonte Academy, which is now just in the wind up of its examinations and which will close for the term to-morrow.

Of the five first-honor men who graduated at State College on Wednesday two of them, Messrs. Green and Marshall, had been prepared at the Bellefonte Academy. Of the three young men granted first-class teachers' certificates at the recent county examinations under Superintendent Gramley, two of the number, Messrs. Charles Kirk, of Bellefonte, and Charles Long, of Howard, were Academy graduates. So well does the Academy stand in the estimation of the Princeton College authorities that they have granted two young men of Bellefonte the privilege of undergoing examinations here, instead of at Harrisburg. This is indeed a compliment to the Bellefonte institution, and those few cranks who think the Academy amounts to little should ponder well over the above.

Juniata Valley Camp Meeting.

The camp meeting at Newton Hamilton will commence Tuesday, August 13, and close Friday August 23. The location is a beautiful grove, in the Juniata valley, near the Jacks mountains, and the balmy, health-giving air of the oak and pine, with the excellent water and other necessary accommodations, make these grounds a favorite place of resort. No more healthful, restful place for parents and children at the low rates of living can well be found. One of the special features of these grounds is the excellent hotel, now completed, which can accommodate about one hundred persons.

The expense attending this camp meeting for ten days is not one-third what it would be to visit sea shore resorts. The Pennsylyania railroad and branches will sell excursion tickets during time of camp meeting. Persons desiring rooms in the hotel during the full term of camp should correspond at once with J. K. Rodes, Sec'y., Lewistown, Pa.

Gompers Has Something to Say

St. Louis, Mo., June 14.—Ex-President S. Gompers, of the American Federation of Labor, arrived here to-day from the south. He intends to pass a few weeks among the local labor organization and will endeavor to secure for them an increase in wages. Mr. Gompers says that the condition of trade in this section of the country is such as to justify at least 10 per cent increase in the wages of employes and in some cases a great deal more. He will devote himself especially to the abolition of the sweat shop system which he claims is greater here than in New York or Philadelphia.

Old Soldiers to Have a Decent Burial.

By a decision of the supreme court handed down recently, when a veteran who is very poor dies his family may bury him and the county shall stand the expense up to $50. The custom has been in some counties to bury such unfortunates by contract, let to the lowest bidder, the same as in case of ordinary paupers. The supreme court said that the law intended that old soldiers should have a decent burial, and that the county should pay a moderate expense.

Seized by the Sheriff.

Long Island City, N. Y., June 14.—The plant of the East River Silk company, in Astoria, was seized this noon by Sheriff Doht, of Queens county, under attachments sworn out by the Bank of America and the National bank. The two banks had in their possession $40,000 and $4,000 respectively of the worthless notes said to have been forged by Albert S. Moore, treasurer of the company. The plant is valued at $80,000. When the sheriff took possession the employes were dismissed and the factory suspended work.

Editorial Difficulties.

'A Tennessee editor says; "We are mad! Darn the people! How can they expect us, out here, twelve miles from a railroad, twenty five miles from a river, millions of miles from heaven, about two miles from the devil, and about two hundred yards from a whiskey shop, to get out a lively newspaper?"

South Central Consolidated Gold M. & M. Co.

The property represented by this company consists of ten claims, situated on the south and western slopes of War Eagle mountain, as follows: South Central, Pauper, South Pauper, California (Old Baxter), Roxbery, Golden Hermit, Miser's Cream, Imperial, Aladdin and Mikado, and two mill-sites.

The head quarters of the company is in St. Louis, and the mines are under the management of Abner Enoch, of the place. The company has but recently been incorporated, and thus far, all operations are confined to the South Central mine, but active work will be commenced on the other claims with in a few weeks. We visited the property last Wednesday. At the South Central we found them employed in sinking the winze from the lowe level. This winze is now 55 feet, and the rich ore which was spoken of in these columns at the time sinking was begun, has continued without change to the bottom—from 9 to 10 inches in width. This ore body is very rich in gold, and a large block of ground is now opened for stoping. The ore on the dump and in sacks at the mouth of the tunnel is by far the best lot ever taken from the property, although the crushings previously made by the owners, run from $75 to $100 per ton. From the Central we visited the Pauper, South Pauper and California, all on the same ledge. The first work contemplated for these properties is to extend the adit tunnel, now 300 feet in, and open all three mines at greater depth than ever before, drain them of water, and furnish at the same time the most economical and practicable avenue of access to the splendid known ore-bodies. By cross-cutting east and west the other claims comprising the group, can be cut at great depth and worked through the main tunnel. The mill-sites of the property are located on Jorden Creek, and the prospective reduction works can be connected with the mines by a wire-tram system, thus putting operations upon a most economical scale. The properties comprising this group are such as seem to warrant us in predicting dividends almost from the start.—*Silver City, Idaho, Avalanche*.

Escaped from Jail.

New Brunswick, N. J., June 14.—Eight prisoners, one of them charged with murder, escaped from the county jail early this morning by cutting a hole in the roof of the building and then reaching the street by means of blankets tied together. It is believed the jail runner, named Clark, aided the prisoners and the authorities are making an investigation. The names of the men are: George Steffank; charged with murder; Thomas Kinsley, John Murphy, John Costello and J. M. Clark, charged with highway robbery, and Louis Fisher, Frank Williams and Joseph Kelley, charged with arson.

25 CTS PISO'S CURE FOR 25 CTS
CURES WHERE ALL ELSE FAILS. Best Cough Syrup. Tastes Good. Use in time. Sold by druggists.

SINFUL HABITS IN YOUTH
LATER EXCESSES IN MANHOOD
MAKE NERVOUS, DISEASED MEN
THE RESULT of ignorance and folly in youth, overexertion of mind and body induced by lust and exposure are constantly wrecking the lives and future happiness of thousands of promising young men. Some fade and wither at an early age at the blossom of manhood, while others are forced to drag out a weary, fruitless and melancholy existence. Others reach matrimony but find no solace or comfort there. The victims are found in all stations of life:—The farm, the office, the workshop, the pulpit, the trades and the professions.

SYPHILIS EMISSIONS STRICTURE CURED
Wm. A. Walker of 16th Street says:—"I have suffered untold agonies for my "gay life." I was indiscreet when young and ignorant. As "One of the Boys" I contracted Syphilis and other Private diseases. I had ulcers in the mouth and throat, bone pains, hair loose, pimples on face, finger nails came off, emissions, became thin and despondent. Seven doctors treated me with Mercury, Potash, etc. They helped me but could not cure me. Finally a friend induced me to try Drs. Kennedy & Kergan. Their New Method Treatment cured me in a few weeks. Their treatment is wonderful. You feel yourself gaining every day. I have never heard of them failing to cure in a single case."
☞CURES GUARANTEED OR MONEY REFUNDED
Capt. Chas. Ferry says:—"I owe my life to Drs. K. & K. At 21 I learned a bad habit. At 21 I had all the symptoms of Seminal Weakness and Spermatorrhoea. Emissions were draining and weakening my vitality. I married at 24 under advice of my family doctor, but it was a sad experience. In eighteen months we were divorced. I then consulted Drs. K. & K., who restored me to manhood by their New Method Treatment. I felt a new life thrill through my nerves. We were united again and are happy. This was six years ago. Drs. K. & K. are scientific specialists and I heartily recommend them."

Bellefonte Republican,

TO CORRESPONDENTS.—No communication published unless accompanied by the real name of the writer.

Correspondents should write upon but one side of the paper, and avoid the use of pale or colored inks.

EDWARD T. TUTEN.

Local Department.

—Ripe cherries are now the latest delicacy.

—John Keller, aged 82, and John Mitterling, aged 78, are two recent Potter township deaths.

—Cards are out announcing the wedding of Miss Stella Armour to Mr. Claude Jones, of Tyrone, on Wednesday June 26th.

—George Goodman is the name of a boarder put in Fort Condo on Thursday. He was arrested in Huntingdon county.

—A basket of the nicest trout the writer has seen this season, was in the possession of Mortimer Donohue on Friday evening.

—Isn't it about time the centennial arches are being removed from the street? It would look more progressive now without them.

—Miss Sallie Meek, formerly of this place, has been elected second assistant principal of the school at Suhrie, Somerset county.

—The members of Walker grange and their friends spent a very pleasant day at Hecla Park on Saturday. The crowd present was quite large.

—All persons in the North ward are notified to cut down their Canada thistles before the first of July, or the law will be enforced. Joshua Folk, Constable.

—Mrs. Lucy Henney, of Centre Hall, had a sixteen pound tumor taken from her body in a Philadelphia hospital a few days ago. It is believed she will recover.

—Friday was "flag day," but the writer has no recollection of seeing even one starry banner flying to the breeze in Bellefonte. Our people are not very patriotic.

—Rev. B. Sarmest, a Nestorian Christian of Persia, will deliver an address in the United Evangelical church to-morrow evening at 7.30. He will appear in his national costume.

—Governor Hastings has now come to the performance of that part of the work of his administration which is no child's play—the cutting down of appropriation bills passed by the recent legislature.

—The *Centre Democrat* last week made its appearance in an entirely new dress of type, which is a great improvement to that enterprising publication. Theeditor is to be congratulated on this evidence of prosperity.

—Lee B. Woodcock and a party of friends are out on the mountains on a fishing excursion. Word received from the boys states that they are having a delightful time. They expect to return next Tuesday.

—And here it is, almost the 20th of June, and no new bridge on Lamb street yet. Evidently some of the new councilmen will soon begin to think that some of the others knew best when the contract was awarded.

—What a delightful summer shower that was on Thursday evening. Only it rained a little two hard while it was at it and then did not keep at it long enough. However, it will be very good for the gardens, corn, oats and grass.

—Saturday the Pittsburg *Times* began the publication of another prize story, entitled "The Six-pointed Star." $500 in gold will be paid the woman or girl who guesses the mystery of the story in advance of the publication of the final chapter.

—Messrs. Jay Woodcock and Edmund Blanchard have passed very creditable examinations and at the beginning of the next College year will enter the Freshman class at Princeton. The young men had a hard examination but they pulled through all right.

—Among the many yards of flowers in Bellefonte about two of the most beautiful are those of Mrs. Mitchell, on Spring street, and Miss Florence Jacobs, on Lamb street. Both these ladies have an endless variety of the choicest plants, all in full bloom.

—On Saturday evening about fifteen wheelmen of Altoona and Tyrone made a run to this place and put up at the Brockerhoff House. Sunday morning they went to the Cave, accompanied by a number of the Bellefonte club and in the late afternoon departed for their homes.

—The funeral of Mr. F. C. Richards occurred Wednesday at 9 o'clock from his late residence on East Linn street. Services were conducted at the house by Rev. Robert E. Wright, of the Episcopal church and at the cemetery interment was made by the Masons, the ritual of that Order being used. Gregg Post was also in attendance.

—A means of forecasting the weather from a morning cup of coffee is given by the Leeds Mercy, which asserts that it has proven more trustworthy than the official guesses. Drop two lumps of sugar carefully into the middle of the cup; if the air bubbles remain in the centre of the cup it will be fine; if they rise rapidly and go at once to the sides it will rain all day; if they gather in the centre and then go in a cluster to one side, look out for showers!

—The abutments for the Lamb street bridge are completed.

—Huckleberries are ripening and are said to be very plenty.

—Quite a nice little social hop was held in Buch Arcade on Tuesday night.

—The ladies in their exhibition of relics during the Centennial realized between $175 and $200.

—On Tuesday H. Y. Stitzer sold his stationery store to a Mr. Kurtz, of Reading, Berks county. The gentleman took charge of the store the same evening.

—Charles Glenn, the photographer, has in his possession a Kingston, N. Y., paper of the date of January 4, 1800. It is quite an interesting and curious relic.

—On Saturday evening an open meeting of the P. O. S. of A., will be held at Scotia and on Monday evening an effort will be made to institute a new camp of the order at that place.

—Superintendent D. O. Etters, of the Bellefonte schools, submitted his annual report to the school board on Tuesday evening. The same will be published in full in this paper in a day or two.

—At the Nittany station, along the line of the Central Railroad of Pennsylvania Mr. Solomon Peck is erecting extensive coal sheds and also a grain house with a capacity for about 7,000 bushels of grain.

—Rev. Sarmest delivered a very able lecture in the Lutheran church on Tuesday evening; vividly describing life in Persia, the religious and social customs of the Armenians, etc. It was well worth going to hear.

—Not since they have reorganized have the Undines asked any donations of the people of Bellefonte. Now that they are around gathering up all kinds of supplies for their 4th of July picnic at Hecla Park they feel that they should be treated even generously.

—By a resolution of council Bellefonte policemen will hereafter be obliged to wear helmets. This is as it should be. The borough peace officers and law enforcers should at all times be not only clothed in proper dignity but in suitable uniform to designate their rank and authority.

—On Wednesday Dr. H. K. Hoy, of this place, removed a senile cataract from the right eye of Mrs. Emel, of Milesburg. The lady is 80 years old and has been totally blind for many years. We hope the operation that has been made and the one upon the left eye which is to follow, may result in restoring to the aged lady this sense so that she may end her life enjoying the blessing of sight.

Children's Day Exercises.

Sunday was Children's Day in many of the churches in Bellefonte and appropriate exercises were held in the various places of worship. The programs were all exhaustive and too long to give in full.

In the Methodist church the decorations were fine, especially the altar, where "a golden gate" was arranged very beautifully. The exercises were entirely by members of the Sunday school, the adults being under the leadership of Supt. Harshberger, and the infants under Mrs. J. A. Woodcock, both of whom, but especially the latter, deserve great credit for the thoroughness with which the exercises had been prepared. A dialogue by a number of the older girls, two songs, "a flower song" and a "march song," by the children, and a number of speeches made up the program.

In the Reformed church the exercises were held in the forenoon and the program was unusually interesting. It consisted of music, recitations and addresses, all of which showed careful and studied preparation. This church was also exquisitely decorated.

A Bold Robbery.

The store at Victor mines, owned by Thomas Gilmour, was entered on Saturday night by robbers, who effected an entrance through the cellar, and got away with a large amount of goods, in all about $350 to $400 worth, such as shoes, dry goods, hats, groceries, etc. They also took $18 in cash. A large crowd of people were on the hunt for them all day yesterday and traced them as far as Nuttall's woods, where a lot of cost marks taken from the goods were found, as well as some chewing gum and other articles. The hunt for the robbers still goes on, and is headed by Captain Simler.

Will Picnic at Hunter's Park.

The Episcopal Sunday school will hold their annual picnic at Hunter's park on Wednesday, June 26th. A special train will convey the school to the Park, leaving the depot in this place at 8.45 a. m. Returning they can come back on a special train leaving the Park at 4.15 p. m., or on any of the regular trains.

Caught Thirty Dozen Trout.

Lee B. Woodcock, of this place, with a Mr. Clark of Eagleville and two lady friends made a merry fishing party that spent a few days at the head waters of the Beech Creek. They returned home Tuesday evening, having caught over thirty dozen trout during their sojourn.

Marriage Licenses.

Clyde A. VanValin and Anna M. Smith, of Unionville.

Emanuel E. White and Minnie Steele, of Axe Mann.

Harry C. Rockey, of Howard, and Minnie M. Deihl, Marion township.

DEATH OF F. C. RICHARDS

He Dropped Dead Sunday Evening of Heart Failure.

Another well known Bellefonter has gone to join the vast throng in the great beyond. At or near five o'clock on Sunday evening Mr. Frederick C. Richards, the prominent jeweler, was stricken down with heart disease and died inside of ten minutes without having regained consciousness.

Mr. Richards had been to New York city during the past week, and while there was suddenly taken ill and his son Edward went and brought him home. After that he was feeling fairly well until he was stricken down. Even during Sunday afternoon he was out and around.

Mr. Richards was a native of Switzerland, where he lived until grown to man's estate and he had completed his trade, that of a watchmaker. While yet a young man he came to the United States and forty years ago he came to Bellefonte and opened up a jewelry store. When the war broke out Mr. Richards enlisted and during that long struggle, served with distinction and valor. Mr. Richards was aged about 68 years. He was a member of Gregg Post, No. 95, and also of the Order of Free Masons. He leaves to mourn their death a loving wife and three children, namely, Constance, wife of Thomas Hill, of Philadelphia, and Edward and Charles at home.

The funeral will take place on Wednesday morning, probably at 10 o'clock, and will likely be conducted by the Masons. It will be from his late residence on East Linn street.

How They Were Killed.

The Saturday's Lock Haven *Democrat* gives the following account of the killing of Mrs. Byers in Williamsport on Saturday:

Mrs. Nelson Byers, a former resident of this city, and her grandson were killed by an electric car in Williamsport between 9 and 10 o'clock this morning, the details of which are of a heartrending character. Mrs. Allen, of Buffalo, N. Y., a daughter of Mrs. Byers, with her child Nelson, were visiting her parents in Williamsport. This morning the family were sitting on the porch of the West Fourth street residence, near Park, when Mrs. Byers accompanied by her visiting grandson went across the street to see a neighbor. On returning to her home the little boy preceded the lady. On looking up the street she saw that an electric car was coming down full speed a short distance away. She hastily ran forward, and as she stepped on the track she tripped and fell. She grabbed the child and they both went down together, as the car struck them. Mrs. Byer's body was found jammed in under the front wheel guard, and her death was instantaneous. The little boy received several severe scalp wounds. He was taken into the house but died about an hour afterwards. Mrs. Byers was about 55 years old and the child was 3 years and 9 months old.

Mrs. Byers has many friends in this city. Her husband when a resident here, was a member of the lumber firm of Hopkins, Weymouth and Byers. Mrs. Allen, the mother of the killed child, has made frequent visits to this city. Mr. Byers is now at York Haven.

Will Go to Ebensburg.

Gen. James A. Beaver, John P. Harris, J. D. Shugert, George W. Jackson, F. W. Crider, Isaac Mitchell, S. M. Buck and a number of other Bellefonters will go to Ebensburg tomorrow to appear as witnesses in the criminal libel case of Governor Hastings against J. H. O'Connor, of Johnstown. One of the allegations made by the ex-district attorney last fall was that immediately after the Johnstown flood General Hastings had invested largely in Bellefonte borough bonds and other valuable real estate here. It is the purpose of the Governor in taking the Bellefonte witnesses to prove the utter falsity of this charge, a thing it will be very easy to do

A Bad Crossing.

There is a crossing over the alley near the property now occupied by John Noll, on Allegheny street, that is in an extremely dangerous condition. Several persons have received falls there recently and one person, Mrs. W. B. Rankin, sustained a very severe injury; so bad that she had to be conveyed home in a carriage J. C. Meyer, Esq., was another person to fall there.

We understand that unless the dangerous place is fixed at once the borough will get into another damage case.

Work Has Commenced.

Work has commenced on the P. & E. railroad at Mahaffey. A large force of laborers are employed and the work is going on without interruption. The first division, eighteen miles, is contracted to Reily & McMannas, who have about one thousand men at work along the line. Two large bridges are to be built on this division, viz: One across the river at Mahaffey and the other across the P. & N. W. tracks at McGee's Mills.

Will Move His Laundry.

J. Malcolm Laurie has made arrangements for the removal of his laundry from the building it now occupies in the rear of this office. A new building will be erected on Water street, opposite Calvin Ray's stand, and there Mac. will then be washing for Bellefonte and half of Centre county, as well as parts of neighboring counties.

IN THE COUNCIL CHAMBER

Not a Long Session but Considerable Business Done.

Council convened Monday evening with members Gerberich, Hillibish, Keller, Brockerhoff, Bush, Brachbill and President Miller present. Clerk Isaac Mitchell read the minutes of the previous session which were approved as read.

Mrs. Bradley appeared before council and asked for a rebate on taxes, at least a throwing off of the additional five per cent.; and, if the council could do nothing else, whether they wouldn't give some of her tenants work on the streets and turn the same in on taxes.

Samuel Gault was present and asked for a crossing on Curtin street; also a pavement on Armour street, from Curtin to Linn street.

Rev. J. A. Woodcock was present and presented a well-signed petition asking that the arc light by the M. E. parsonage on Linn street be moved to the corner of Linn and Ridge. This petition was seconded by a recommendation of the Street committee.

The Street committee reported considerable work done, among which was the putting down of a crossing on Linn street from the M. E. parsonage north; the completion of the paving of the diamond; the purchase of the sandstone from Thomas McCafferty with which to complete the Lamb street bridge abutments; the settling of all claims with R. McCafferty & Sons in full; that the abutments would be ready for the bridge on Wednesday, June 19th.

The Water committee reported the pipe laid to the car works and that two additional consumers have been added on that line: the committee recommended that the same rate of tax be laid as last year, and they ask permission to set the the day of appeals whenever the Commissioners are ready. The big spring has been cleaned and the reservoir will be cleaned this week.

The Fire and Police, Market, Nuisance and Finance committees all reported progress.

Clerk Isaac Mitchell asked permission of council to take the old minute book to Ebensburg to enter as an Exhibit in the libel case of Governor Hastings vs. J. H. O'Connor.

The request of Mrs. Bradley was referred to the Street committee, especially the request to give her tenant work on the street to help pay her taxes.

The request of Samuel Gault for a crossing on Curtin street was referred to the Street committee with power to act. The request for a boardwalk on Armour street for investigation and report. The Street committee was authorized to move the arc light on Linn street to Linn and Ridge. The Street committee was empowered to proceed according to law in the laying and collection of the assessment for the paving of the diamond.

The Water committee's recommendation as to the tax rate for the ensuing year was adopted. They were also empowered to set the day of appeals at their convenience.

President Miller then asked of council that, when the arc light was moved on Linn street, an incandescent lamp be put there in its stead. On motion the matter was referred to the Street committee with power to use their discretion.

Burgess W. E. Gray was present and asked permission of council to properly uniform the borough policemen. The request was granted and the Burgess instructed to also purchase helmets and require the men to wear them.

The business being concluded the following bills were approved and council adjourned:

Water Pay roll	$ 52,89
Cleaning Spring	9,70
Street pay roll	35,16
Thomas R. McCafferty, sandstone	119,90
R. McCafferty & Sons, bal. on bridge	51,28
E. T. Tuten, publishing ordinance	28,95
Central Railroad of Pa., freight	5,10
Police pay roll	57,00
A. Baum, hauling steamer	8,00
Wm. Frederick, cleaning creek	1,50
Thomas Shaughensey, market clerk	1.00
James H. Potter, livery hire	10,00
Total amount	$380,39

Enjoyed a Good Fish.

When Col. W. Fred Reynolds returned from New England he was accompanied by his brother-in-law, Col. Frank Harris, of Governor Brown's staff, Rhode Island, and his brother, Mr. Samuel H. Reynolds of Lancaster, and on Friday last the three gentlemen with Mr. Joseph Montgomery went to Spruce Run on a two day's trout fishing excursion. They returned Saturday evening, having landed all told in the two days almost three hundred fine mountain trout. Col. Reynolds' guests were delighted with the trip, had all the trout they could eat while there and brought a couple nice baskets full along to Bellefonte with them.

House Burned.

On Saturday afternoon the large house on the farm of Mr. George Dale, at Dale's Summit, near Lemont, caught fire and was entirely destroyed. The family occupying the same succeeded in getting the most of their furniture out, but some of it was burned. The origin of the fire is a mystery. The loss is about $2,500, partially insured.

Digging for Water.

A well is being dug by the railroad company near the Bald Eagle Valley passenger station at Mill Hall for the supplying of engines on the valley with water. Quite a number of men are engaged in the work and last night they had reached a depth of fifteen feet. The water supply has heretofore been obtained from Fishing creek.

ABSOLUTELY PURE

WILL TRY AGAIN FOR GAS

The Salt Lick Company Arranging to Put Down Another Well.

The directors of the Salt Lick Gas and Oil company met in the office of County Treasurer McCrea, Lock Haven, Friday evening. The directors present were: I. C. McCloskey, J. A. Heckendorn and J. H. Hunter, of Karthaus; O. T. Switzer, of Philipsburg, J. Q. Miles, of Bellefonte; F. L. Coudriet, of Frenchville; M. D. Kelly, of Snow Shoe; Samuel Christ, J. W. Smith and G. R. McCrea, of Lock Haven.

It was ascertained that the drilling of the new well will cost about $3,000, and that there were $500 of that amount lacking. The $500 was promptly subscribed by the directors present and the president and secretary were authorized to contract with the drillers to sink the second well.

The company now has about 7,500 acres of land under lease in the vicinity of Karthaus. The selection of the spot for the new well will be left to the drillers, but it will not be over a mile from the old one. The drillers will begin operations as soon as they get through with several contracts which they now have on hand in other oil fields. The drillers are very confident that they will strike oil and gas in this field, and have proved the sincerity of their confidence by investing several hundred dollars. They are strongly of the opinion that they would have met with success in the first well drilled for the Salt Lick company had it not been for the interference of the salt water. To further strengthen this opinion they cite the fact that when the casing was removed quantities of salt water flew high into the air, the force to do which having been given by the gas in the sands beneath the surface.

The salt water on this field, of which so much has been said, comes from the number of salt works which in past years were built on these grounds, the first of which works was built as far back as the year 1826, and which with subsequent establishments were operated for many years. The Salt Lick company is not the first to drill for oil and gas. In 1871 a well was drilled by a number of prospectors with the hope of finding these illuminants, but after going down a depth of about 900 feet the well was abandoned.

How "Panther Run" Derived its Name.

One of the stations on the Beech Creek railroad is named "Panther Run," and it is located in a most picturesque part of the route traversed by the railroad. "John of Lancaster," in an article written for the Williamsport News, tells why "Panther Run" is so named, in the following words:

"Captain Sam Brady and Peter Grove once pursued a band of murdering Indians up this little stream, and coming upon their camp in the night killed a big Indian named "Panther," who had scalped a number of white settlers in Buffalo Valley. The Indian path leading over the mountains to the river and Sinnemahoning, came up Beech creek to this run and then ascended it. It was a favorite route for "sneaky" Indians. Sam Brady knew this, and it was here that he came to lie in wait for them. And he got that particularly bad one known to the white settlers as the "Panther." So it will be seen that the little stream perpetuates more than the name of an animal.

Bicycle Race on the Fourth.

Saturday's Huntingdon *Local News* says:

A meeting of the wheelmen of Huntingdon was held in the Y. M. C. A., hall on Thursday evening last for the purpose of making arrangements for a bicycle race in Huntingdon on July 4th. James Sponeybarger was elected Chairman Harry McIlroy, Secretary. It was decided that the race be between Centre Union and Huntingdon, and that the entrance fee be made 50 cents. The following persons were appointed a committee of arrangements: Ernest Newell, George Fisher, Warren Simpson, D. S. Drake, and James Sponeybarger. The meeting decided to present three prizes, the first a gold medal, the second a bicycle search lamp, nickle plated; the name of the third was not agreed upon, but it will be at the next meeting.

A Curious Well.

Morrellville Times: Henry Anderson has a curious flowing well on his place. A stream of water as large as a man's arm never ceases to flow, summer or winter, no matter how dry the season may be. It is fifty feet deep. The last eighteen feet four inches at the bottom of this well are drilled through solid rock. A peculiarity of the well is that in summer the water is as cold as ice, while in winter it is warm. Colonel Frazer, when he kept the drug store in Johnstown, analyzed a sample of the water and stated that it had more iron in it than any other in this part of the state.

White back Wall Paper, 4 cents a bolt, at J. W. Hou er & Son's, No. 20 Bishop t., Bellefonte. m18-tf

FOR SALE.—A fresh Jersey cow and calf. Inquire of F. P. Blair. m14-tf.

Personal Pencilings.

Miss Fannie Beach, of Waterbury, Ct., is a guest at the home of Mr. John Ardell.

Mr. Hamilton Humes and wife, of Jersey Shore, sailed to-day for a two months' tour in Europe.

Mr. and Mrs. W. Fred Reynolds have returned from an extensive trip to the New England states.

Mrs. W. T. Meyer and children departed on Tuesday for Aaronsburg, where they go to visit Mrs. Meyer's parents.

Mrs. Frank Metcalf and two children, of Jeanette, are at present visiting her mother, Mrs. A. A. Walker, at Bush's addition.

Mrs. Kate Burnet and children arrived in Bellefonte from New York Friday evening and is now at her mothers, Mrs. A. G. Curtin, on High street.

Charles Kurtz has purchased and now owns the Centre Democrat plant out and out. The next thing Charlie will need now to make him entirely fixed is a wife.

Miss Bessie Meek, daughter of Surveyor P. Gray Meek, arrived home Friday night from Texas where she spent the winter. Miss Meek did not enjoy the hot weather of that southern clime, but her trip home was delightful.

Malcolm Reber and three others went fishing in the creek between Hublersburg and Nittany, one day last week, and caught ninety fish, principally of the sucker variety. Malcolm is visiting at the home of his uncle and aunt, Mr. and Mrs. Beck.

Gen. Beaver was at Canonsburg, Pa., Tuesday taking part in the celebration of the removal McMillan's old log college from McMillan to the campus of the Jefferson academy. The College was erected by Rev. John McMillan one hundred and fifteen years ago.

After a ten days visit to their relatives in this place Mr. and Mrs. Will H. Keller and their little son Daniel, left Wednesday for their home in Lancaster. We know Will is getting along splendidly for no one could look as well as he does and be as happy if his clientage did not pay.

Mr. Claude Jones, of Tyrone, spent Sunday in Bellefonte the guest of—gosh! but we came near giving our editorial friend away. Well, if all reports are correct, Claude won't visit Bellefonte many more Sundays until he will take the object of his coming along with him. Congratulations might not be out of order.

112 Miles in 8 Hours.

The Williamsport *Gazette and Bulletin* says: Sunday morning George M. Robinson and Lyman Pray started out to make a "century run." At Newberry Robinson punctured a tire and was compelled to return to the city, while Pray continued on the run. The start was made at 5.10 a. m. He arrived at Lock Haven at 7.33 and in twenty-seven minutes left for Bellefonte at which place he arrived at 10.10 and remained for dinner. Leaving Bellefonte at 2 p. m. he arrived at Jersey Shore at 5.50 where he took supper and left at 7 o'clock for this city arriving home at 8.20. The total miles traveled was 112, and the actual riding time was 8 hours and 18 minutes. The route from Lock Haven to Bellefonte was through the Nittany valley, via Hublersburg and Zion.

Firemen and Centennial.

MR. EDITOR:—We wish to be placed right in regard to not turning out on Centennial day so some of our citizens are criticising us rather severely. When the invitation was read to the Company it was discussed thoroughly and we found that some of our members were obliged to turn out with some other organization; some had floats of their own. In all, about one half could not turn out, so we declined the invitation respectfully and ordered the secretary to reply to that effect. If we had accepted, we would certainly have turned out. The committee did not expect us, as we were not placed in the line Please make these statements and oblige,
